

# MONKEYPOX CLEANING AND DISINFECTING

FOR THE GENERAL PUBLIC AND CONGREGATE SETTINGS, CLEAN AND DISINFECT IN THE FOLLOWING ORDER AFTER SOMEONE WITH SUSPECTED MONKEYPOX IS IN YOUR FACILITY:

## 1 USE OF PERSONAL PROTECTIVE EQUIPMENT (PPE)

- Wear disposable medical gloves.
- Wear respirator (KN95, N95) or well-fitting mask.
- After removing PPE, wash hands using soap and water.

## 2 GENERAL WASTE CONTAINMENT

- Collect all solid wastes, disposable items including toiletries, and general trash items and put in a sealed plastic bag for disposal.

## 3 LAUNDRY

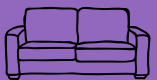

- Gather contaminated clothing and linens before anything else in the room is cleaned. Place in disposable laundry bag or clean bag.
- Soiled laundry should never be shaken. Keep separate from other households laundry.

## 4 HARD SURFACES AND OTHER HOUSEHOLD ITEMS

- Clean and disinfect frequently touched surfaces including: countertops, door handles, light switches, remotes, floors, refrigerator, drawers, etc.
- Wash dishes and eating utensils with soap and hot water.

## 5 FURNITURE, CARPET, AND OTHER SOFT FURNISHINGS

- Disinfect the surface with a surface-appropriate disinfectant, including:
  - Couch
  - Pillows
  - Carpet
  - Rugs
  - Mattress
