

TO: All Fresno/Kings/Madera/Tulare Advanced Life Support Provider Agencies
FROM: Mato-Kuwapi Parker, EMS Coordinator *Mato-Kuwapi Parker*
DATE: April 8, 2020
SUBJECT: i-gel Supraglottic Airway Guidance

In discussion with Medical Control, the i-gel Supraglottic Airway is approved for use in adult patients that require advanced life support airway management. The adult i-gel Supraglottic Airway comes in the following sizes:

Size		Weight
5	Large Adult	90+ kg
4	Medium Adult	50-90 kg
3	Small Adult	30-60 kg

This guidance has been provided in reference to Special Memorandum F/K/M/T #02-2020 Suspension of Endotracheal Intubation. Policy 530.02 General Procedures will be updated to reflect the i-gel Supraglottic Airway change.

Please contact Mato-Kuwapi Parker, EMS Coordinator at (559) 600-3387 if you have any questions.
