My name is Pedro Navarro Cruz and I am a Community Organizer with CNC Education Fund and a district 3 resident. Looking at the current County Supervisorial Map, it is clear to see that affluent parts of the county gain a massive advantage in the way districts 2 and 5 are currently drawn. The North Fresno and North Clovis metro area is where the voting propensity is very high and voters do not vote in favor of uplifting working families. These two parts of Clovis and Fresno have more in common with each other than they do really with the rest of the county and therefore need to be mapped together in its own district. I do believe that both Inclusive Families Map captures a counter-narrative that will uplift families that have been marginalized the last 20 years. It is a sad truth that the Board of Supervisors in 2011 made very few changes from the maps drawn in 2001. This means that our maps have not changed meaningfully in 20 years, despite the County changing and growing. Changing the maps to reflect Fresno County's growth and evolution is not just required by law -- it is the right thing to do.
