Dear Fresno County Board of Supervisors,

I write to you all to express my deepest concern with the map you are considering to be the map all Fresno County Residents will have to live with for the next 10 years.

My neighborhood and Fresno communities that look like mine are not having the same consideration as North Fresno and Clovis. It's impossible to have a perfect map but actions speak louder than the words and it's clear to see that the map being considered offers little to no changes and is solely focused on minimal population adjustments that would result in preserving the status quo. It is completely unfair and undemocratic how we as communities with serious needs poured our heart into this process but the outcome is on the verge of being decided by private conversations and self-interests. As you look through the notes of the hearings and workshops that have been a part of this process, there is little to nothing on the public record to uplift many statements made by Supervisor Brandau. In particular to the point of keeping North Clovis and North Fresno together when in contrast numerous comments were made highlighting their similarities and need to be kept together. The communities voice should be taken into account and not canceled out by a private conversation Supervisor Brandau had with a City of Clovis leader.

We hope that you take the time to actually consider Community of Interest testimonies made during this public process. We were promised a fair process and were even praised by NDC for all the community

participation. Now it all feels like we were just tokenized since the decision that is being considered does not take our blood, sweat, and tears into account.
