**CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK**

1. Remove any map backed by political organizations like the Dolores Huerta Foundation to ensure a fair and legal redistricting process
2. Speakers on behalf of the Equity Coalition Map 116 have stated that they need a better map so that they can get "proper" representation. They are explicitly stating that they want a map adopted that will allow them to elect someone of their political ideology and this is illegal per the FAIR MAPS ACT of 2019. ("Districts shall not be drawn to favor or discriminate against an incumbent, candidate, or political party." California Constitution article XXI CA Government Code, sections 8251 - 8253.6)
3. Highly consider the recommendations made by the Redistricting Commission
4. Highly consider these emails as individuals that could not participate in person during the public hearing but have an active role throughout the county.
