Sivanto Prime	Citrus	7 oz.	1	\$24.06	\$35.00	\$59.06

## GLASSY-WINGED SHARPSHOOTER FRESNO AREA WIDE MANAGEMENT PROGRAM

Footnotes:

<sup>2</sup> Use limited to crops under organic farming practices.

## Application Guidelines:

1. Baythroid and Lannate in a least 125 gallons of water;

Pyganic EC 5.0 II - should be applied in 200 gallons of water with ground speed of 2 miles/hour
All pesticides applied at ground speed of 2mph.

Note: Alternative pesticides, timing, repetitions and reimbursement rate per acre per application may be substituted with prior approval of field treatment coordinator.

This table is compiled to aid in decision making for treating GWSS and not a list of recommendations. Always check current label restrictions and latest CODEX/MRL posted by the Citrus Research Board before using insecticides.
