services. This includes individuals with early onset and/or chronic mental illness, co-occurring issues, chronic homelessness, and anyone seeking support for their wellness and recovery. These member driven services are provided for Adults 18-59 years and Older Adults 60 plus years. Blue Sky has averaged 67 members per day. Blue Sky leverages the experiences and expert knowledge of members and their family members and other interested members in the community.

CORE CONCEPTS:

- **Community collaboration:** individuals, families, agencies, and businesses work together to accomplish a shared vision.
- **Cultural competence:** adopting behaviors, attitudes and policies that enable providers to work effectively in cross-cultural situations.
- **Individual/Family-Driven, Wellness/Recovery/Resiliency-Focused Services:** adult clients and families of children and youth identify needs and preferences that result in the most effective services and supports.
- **Access to underserved communities:** Historically unserved and underserved communities are those groups that either have documented low levels of access and/or use of mental health services, face barriers to participation in the policy making process in public mental health, have low rates of insurance coverage for mental health care, and/or have been identified as priorities for mental health services.
- **Integrated service experiences:** services for clients and families are seamless. Clients and families do not have to negotiate with multiple agencies and funding sources to meet their needs.

Please describe how the selected concept (s) embedded :

Individual/Family Driven Program: Blue Sky is a wellness, recovery, and resiliency center that provides peer driven education, stigma reduction, social activities and opportunities, volunteer opportunities, and support activities to address mental illness and/or behavioral health challenges to achieve recovery and wellness. Support for family members and other support persons of individuals living with mental illness is an integral component to the wellness and recovery for client populations being served through MHSA. Blue Sky provides space for the National Alliance on Mental Illness (NAMI)family support groups. The Peer Advisory Committee (PAC), which meets monthly, steers the planning for groups and activities as well as implementation of prevention and early intervention activities from the member and their family member perspective. Kings View provides curriculum for group leaders to pull from and training on how to lead

groups where members then take the lead.

Recovery Resilience Orientation: The unique experience with the mentally ill and co-occurring population at Blue Sky supports the foundation that members can and do thrive in recovery and wellness and become contributing members of society when supported and allowed to do so. All team members are trained in teaching and coaching usage of the Wellness Recovery Action Plan (WRAP) model for everyday living. “Choices and Options” are determined by the member with empowerment as the goal. Trainers are encouraged to adhere to WRAP values and ethics, including utilization of WRAP in their own lives and practicing self-regulation skills. Peers embrace peers by sharing their experience, strength and hope and by illustrating what recovery looks like and that it is achievable. All Blue Sky members have a safety plan so that they can detect a breakdown in their coping skills to respond before a mental health crisis occurs.

Community Collaboration: Blue Sky collaborates with other agencies to provide the best support and services needed for members in the moment. The goal is to support members and make appropriate initial placement. Some of Blue Sky’s collaborative partners are: RH Builders, RI International, Turning Point of Central California, West Care, Exodus, Community Behavioral Health Center (CBHC), Housing Authority, Room and Boards, Board and Care Homes, Fresno Area Express (FAX), Handy Ride, In-Home Supportive Services (IHSS), General Relief (Social Services Dep.), California Department of Health and Human Services (DHHS), Social Security, American Payee, Supportive Employment Education and Employment Services (SEES), Equal Opportunities Commission (EOC)-Work Force Connection and Employment Development Department (EDD), Poverello House, Catholic Charities, and Fresno Rescue Mission.

Blue Sky Wellness Center also collaborates with other Kings View programs to include: Multi-Agency Access Program (MAP), Projects for Assistance in Transition of Home (PATH) and HERO, and Metropolitan Crisis Intervention Team (CIT).

A full time Recovery Resource Coordinator position provides linkage to other services to address basic needs for members. Many members are linked to the programs for an assessment and to access needed mental health case management, psychotropic medication and housing services. The PATH case managers often co-locate at Blue Sky to expedite needed care.

Ingetgrated Services Experience: Kings View has, so far, been the first and only provider for Blue Sky Wellness Center since 2008. Blue Sky Wellness Center also collaborates with other Kings View programs to include: MAP, PATH and HERO, and METRO CIT. A full time Recovery Resource Coordinator position provides linkage to other services to address basic needs for members. Many members are linked to the programs for an assessment and to access needed mental health case management, psychotropic medication and housing services. The PATH case managers often co-locate at Blue Sky to expedite needed care.

Kings View also runs the Oak Wellness Center in Hanford, Visalia Wellness Center in Visalia, Sunrise Wellness Center in Shasta County, and Porterville Wellness Center in Tulare County. Program Managers participate in a wellness center collaborative to share best practices and provide resources to each other.

Access to underserved communities: Blue Sky Wellness Center is centrally located in an area that is easily accessible by the members who have limited access or transportation to needed services. Kings View outreach team provides presentations at various programs, schools, and outreach events throughout Fresno on services offered by the Blue Sky Wellness Center in addition to educating the community on reducing the stigma related to mental illness.

Cultural Competency: Cultural Competency and Diversity is an integral part of the Blue Sky Wellness Center as we ensure non-discriminatory and respectful services to members by creating a welcoming environment. Cultural Competency and diversity practices include: Events related to culturally diverse populations, providing language line and interpretation services,

educating and training staff on various cultural diverse topics, and seeking staff members and volunteers who represent a variety of cultural backgrounds and can communicate in cross-cultural situations.
