NARCOTIC TREATMENT PROGRAMS

OTP Level of Care 1 - Opioid (Narcotic) Treatment Program

Narcotic Treatment Program (NTP) is an outpatient program that provides Food and Drug Administration (FDA)-approved medications and biological products to treat substance use disorders (SUDs) when ordered by a physician as medically necessary. NTPs administer, dispense, or prescribe medications including methadone, buprenorphine (transmucosal and long-acting injectable), naltrexone (oral and long-acting injectable), naloxone and disulfiram.

NTP Services include assessment, care coordination, counseling, family therapy, medical psychotherapy, medication services, medications for addiction treatment (MAT) for opioid use disorders, alcohol use disorders and non-opioid SUDs, patient education, recovery services and crisis intervention services.

Counseling services provided in an NTP setting can be provided in person, by telehealth, or by telephone.

RESIDENTIAL SERVICES

Level of Care 3.1, 3.3 and 3.5

Residential Treatment Services are available to persons served with more severe needs as a short-term, in-patient program. Residential Treatment Services include assessment, care coordination, counseling (individual and group), family therapy. Medication services, medications for addiction treatment (MAT) for opioid use disorders, alcohol use disorders and non-opioid substance use disorders (SUDs), patient education, recovery services, and crisis intervention services.

A person served admitted to a residential program lives on the premises and shall be supported in their efforts to restore, maintain, and apply interpersonal and independent living skills and access community support systems. The length of stay in a residential treatment program is based on the person served's individual needs as determined by a full assessment.

WITHDRAWAL MANAGEMENT

Level of Care 1-WM – 3.2-WM

Withdrawal Management Services focus on stabilization and management of symptoms associated with withdrawal, engagement in care and effective transitions to a level of care where comprehensive treatment services are provided. Withdrawal Management Services are provided in outpatient or residential settings.

Withdrawal Management Services include the following service components: assessment, care coordination, medication services, medications for addiction treatment (MAT) for opioid use disorders, alcohol use disorders and non-opioid substance use disorders (SUDs), observation, and recovery services.
