=====

How much election cheating are you willing to put up with?

What if it's for an allegedly good cause? Does that change your answer?

Do you know all the public officials with duties related to local measure elections? County supervisors, registrar of voters, county counsel, school board that resolves to put measures on the ballots. A lot of public officials, most of them getting salaries you could never dream of.

Are these public officials corrupt? All of them?

Then how do you explain that at every election they all look the other way or point fingers at each other saying that "It's not my job to enforce measure election laws?"

How is it then, that all these public officials, who you pay, combined, millions of dollars a year, have never (never means not once) put a local measure on the ballot that follows the law? <http://bit.ly/GrandJury2021>

The statutes regarding local measure elections apply to every county. How is it that every county, even Fresno, doesn't follow every law, as written? Who benefits? Certainly not you.

It's almost like it's a conspiracy. Because the public officials (school board) who start the ball rolling, violate every meaningful law with the knowledge, apparently, that all the other public officials will go along with their corruption.

There are too many broken laws to mention in 300 words, but you can check it out (<http://bit.ly/ElectionCheating>) for all the gory details.

Bottom line: All the public officials would rather have gullible voters force taxpayers, including themselves, to send every dollar they dream up to some government agency or another. It's more for them. Less for you.

Are you tired of been taken for a chump? Vote HELL NO! on Measure _ (\$81,510,205 tax).
