Argument Against MeasureH

Are you "community members?" Why is it that only "community members" who agree with District knew about this huge \$18,700,000 tax? What's District hiding?

Don't be deceived by District's campaign, funded by businesses that will likely benefit from bond money. (Isn't that called pay-to-play?) Beware of high-priced marketers masquerading as "parents, teachers, and community leaders."

K  
...PUTY

Why Vote No on MeasureH?

- It's virtually, word-for-word, identical to every other bond measure written by lawyers and advisors who made \$1,597,989 (payable by you, with interest) from facilities debt issued since 2007.
- Did you hear about a list of projects? Why isn't there a list of SPECIFIC projects in MeasureH? Because it would restrict the District to spend the money ONLY on those things?
- Can you trust District? Why did it violate oversight laws over many years for MeasureP (2004) \$4,500,000? MeasureP (2014) \$6,000,000?
- Did you know that District issued \$13,725,162 in facilities debt since 2007? \$3,225,162 behind your back. Where has all that money gone?
- Why did District violate oversight laws over many years for previous MeasureP (2004)? MeasureP (2014)?
- How much did District waste on MeasureP? It's not District's money. It's yours.

Proposition 39 permits a bare majority of voters (55%) to approve these bonds. "To ensure that BEFORE they vote, voters will be given a list of specific projects their bond money will be used for," it requires that MeasureH be a "list of the specific school facilities projects to be funded." (Source: Proposition 39 ballot measure.)

MeasureH's intentionally vague language gives District a BLANK CHECK with NO ACCOUNTABILITY.

Don't vote to waste your taxes on vague promises. Did District keep its promises from MeasureP? It spent \$10,500,000 and still has "leaky roofs?"

Bond money is like drugs. Don't give District another fix. Just say no!
