Section 14. Estimates Included in Ballot Materials. The measure and related tax rate statement authorized by this Resolution includes certain information which is based upon reasonable assumptions and current expectations, which may include information with respect to the amount of money required to repay issued bonds, the estimated rate of the approved tax per \$100 of assessed valuation, and the period through which the proposed tax supporting bond repayment will be levied and collected. Any such estimates have been provided by the District in good faith based upon information currently available to the District, but depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan. The estimates and projections set forth above shall not restrict the tax imposed in accordance with the bond measure. Such estimates and approximations are not intended by the Board to be additional restrictions on the District's bond program and bond issuances, and, other than the total principal amount of bonds authorized to be issued by the bond measure, shall not represent legal maximums or additional limitations on bond issuance.

Section 15. Joint/Community Use. Using funds from the Bonds, the District may enter into agreements with the City of Fresno, the City of Clovis, the County of Fresno or other agencies or nonprofit organizations for joint use of school facilities in accordance with State law. The District may seek State grant or matching funds for eligible joint-use projects as permitted by law, and Bond funds may to be used to fund all or a portion of the share for such eligible joint-use projects as the Board shall determine.

Section 16. Request for Measure “A” Designation. The District has been assigned the measure designation “A” on past measures, since the year 1986. At the time that the County Registrar assigns measure designations pursuant to Elections Code Section 13116 to measures appearing on the March 3, 2020 ballot, the District respectfully requests, for consistency with its voters and to avoid voter confusion, that the bond measure called by this Resolution be designated by the letter “A”.

Section 17. Official Actions. The President of the Board and the Superintendent are hereby separately authorized and directed to execute and deliver to County officials any directions, requisitions or other writings, and to make any changes to the texts of the measure as described herein and in the tax rate statement, to conform to any legal requirements or the County Registrar, in order to cause the election to be held and conducted in the District.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIII A, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Evaluation of Needs. The School Board has identified detailed facilities needs of the District and has determined which projects to finance from a local bond. The School Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List shown below.

Independent Citizens’ Oversight Committee. Following approval of this measure, the Board of Trustees will establish an Independent Citizens’ Oversight Committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the School Board.

Performance Audits. The School Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The School Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Fresno County Treasurer, as required by the California Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of Trustees of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), those being for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

COVENANT REGARDING MAXIMUM BOND TERM

The bonds may be issued in one or more series. Each series of bonds authorized by this measure will not have a term that extends more than 25 years from the date of issuance.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed project or projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the project or projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS INCLUDED IN BALLOT

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. The District may alter the scope and nature of any of the specific projects that are described above as required by unforeseen conditions that may arise during the course of design and construction. In the event that a modernization or renovation project may result in higher costs than new construction, this bond measure authorizes land acquisition, relocation and construction and/or reconstruction, and all costs relating thereto, for said reasons or, alternatively, based on other considerations deemed in the best interest of the District by the Board of Trustees. In addition, authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the project list, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The District plans to pursue funds from other sources to advance the identified projects to the extent possible. If matching funds from the State or any other source become available, they will be used for and applied to the Bond Project List.

The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board of Trustees. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.
