

**Argument in Favor of Measure A  
Westside Elementary School District**

Every child deserves to learn in quality school facilities. Your YES VOTE on Measure A will prepare generations of our local students for future success. While our teachers and staff do a great job educating local students, many classrooms and buildings in the Westside Elementary School District are outdated and inadequate to provide students with the school facilities they need to succeed. NO other funding currently exists to upgrade these facilities.

Although we passed Measure G nearly four years ago, our work is not done. Aging classrooms and facilities must be upgraded since many do not meet 21st century standards. A local school improvement measure would allow the District to continue improving the quality of education provided to local children. By investing in new facilities we can help our students get the educational attention they deserve.

**If passed, Measure A will provide funding to make facility improvements at our school including:**

- Repairing or replacing leaky roofs
- Improving student access to computers and modern technology
- Repairing or replacing outdated heating, ventilation and air-conditioning systems
- Modernizing/renovating outdated classrooms, restrooms and school facilities
- Renovating or replacing deteriorating plumbing and sewer systems
- Making health, safety and security improvements

**Measure A makes financial sense and protects taxpayers.**

- All funds must be spent locally and **cannot be taken by the State.**
- By law, spending must be reviewed and annually audited by an independent citizens' oversight committee.
- Funds can only be spent to improve our school, not for teacher or administrator salaries.

Measure A upgrades and renovates inadequate school facilities, improves the education of local children, and maintains the quality of our community. Protecting our local, high quality education is a wise investment for your property values and a strong community.

JOIN US and VOTE YES on Measure A.
