# Discussed and Decided at August 15 R&E Meeting

Results of interviews with CCP Executive Members  
Simpler data presentation for CCP monthly meetings

- Some wanted more advice and “so what”
- Now moving to a more analytic-outcome based reporting format
- Need to explore *outcome measures* and sources
- Many felt that the R&E Committee should vet data before presenting it to the CCP
- Focus on outcomes of programs and alternative **sentencing**: Limits of non-randomized samples and small sample sizes

# R&E Committee Agreed to

- Use the CPOC and Sheriff's Association data "dashboard" for monthly updates.
- Meet more often to review data two weeks before the CCP meetings.

# Owen Research Evaluation will

- Plan for “so what” reports re trends and policy recommendations.
- Design more analytic/outcome-based reports at 4 or 6-month intervals.
- Plan for these reports to be presented to R&E.
- Explore additional data sources, for example,
  - Arrests/Success
  - Filings
  - Early releases
  - Other outcomes

# Owen Research Evaluation will

- Continue to meet with data partners to refine data analysis.
- Develop & vet Annual Report Design
- Collaborate with Turning Point to design a process and outcome study (working with Turning Point staff for a data sharing agreement).
- Have an advisory role to NIC/Urban Institute Transition from Jail to Community (TJC).
