Step 1: This Waste Management Plan - Determination Form (Page 1) must be submitted and approved prior to permit issuance.

The Integrated Waste Management Act of 1989 (AB 939) requires cities and counties to reduce, by 65%, the amount of waste disposed of in landfills by the year 2000 and beyond, or potentially incur fines of up to \$10,000 per day. This Waste Management Plan and the Waste Log/Acknowledgements are designed to assist County compliance with this State mandate, and provide builders with a means of documenting the waste reduction requirements included in the latest edition of the California Green Building Standards Code (CALGreen, Section 4.408.1-5).

Projects are required to submit their Waste Log, Acknowledgement Form, and Weight Receipts prior to Certificate of Occupancy (CO) issuance. Failure to provide documentation of solid waste (trash) reporting, reporting of waste diversion less than 65%, and failure to provide adequate weight receipts, may render a WMP non-compliant and owner subject to fines.

DEAR MSC HOME RESTORATIONS LLC:

SUBJECT: WASTE MANAGEMENT PLAN LETTER OF ACCEPTANCE
PERMIT NO: 20-100991
PERMIT ADDRESS: 3457 PALOMA, RIVERDALE

Staff has completed review of the Waste Management Plan (WMP) submitted by you for the above listed permit number and address. Your WMP has been found to either 1) meet compliance, or 2) demonstrate a good faith effort in meeting compliance with the State of California's construction and demolition waste diversion program requirements.

THIS LETTER SERVES AS OFFICIAL NOTICE THAT YOUR WMP IS HEREBY ACCEPTED AND APPROVED BY THE RESOURCES DIVISION.

The County administers this program, which is mandated by the CALGreen Building Standards Code and adopted by the California Building Standards Commission. Beginning January 1, 2017, the State adopted revised standards and now requires that 65 percent of waste be diverted from project sites through recycling, reuse, or salvaging. As part of these requirements, project waste must be tracked on a log, and documentation must be provided to support information on the log in order to meet compliance. Additionally, the County as a jurisdiction is tasked to comply with the regulations established by Assembly Bill 939 (AB 939), also known as the Integrated Waste Management Act of 1989, which mandates that jurisdictions achieve significant reductions in the amount of waste going to landfills.

Staff thanks you for your efforts in assisting the County with meeting the State's waste diversion mandates. Should you have any questions regarding the construction and demolition waste diversion program, or the WMP process, please do not hesitate to contact staff at condemo@fresnocountyca.gov, or by phone at (559) 600-4259.

Sincerely,

Irene Duran
