(Signature of Installer)

(Date)

FIRE RESPONSIBILITY AREAS

** SRA (State Responsibility Areas) includes most areas of the County East of the Friant-Kern Canal or West of Interstate Highway 5.

Declaration of Installation Smoke Alarms and Carbon Monoxide Alarms 2023

Building Permit # _____

Dear Property Owner or Licensed Contractor:

The California Residential Code (CRC) requires that carbon monoxide (CO) alarms as well as smoke alarms shall be installed in dwelling units intended for human occupancy upon application for a permit for alterations, repairs, or additions exceeding one thousand dollars (\$1,000). In order to grant a final approval on your permit, it is necessary to verify the installation of these alarms within your dwelling unit. This form provides you the ability to self-verify this installation to Development Services staff when convenient access to the interior of the dwelling is not readily available, (e.g., re-roof, rooftop photovoltaic system, service change or other exterior work).

DECLARATION OF INSTALLATION UNDER THE PENALTY OF PERJURY

By signing this document as the owner or licensed contractor, I/we affirm and declare under the penalty of perjury, under the laws of the State of California, by our signatures below as owner or licensed contractor that I/we will comply prior to final inspection with Items A & B as specified herein and in accordance with CRC sections R314 and R315 :

- A. Smoke alarms are installed in accordance with the approved manufacturer's instructions and per the requirements of the California Residential Code, in all of the following areas:
 - a. Each sleeping room(s).
 - b. Outside each separate sleeping area in the immediate vicinity of the bedrooms.
 - c. On each additional story of the dwelling, including basements and habitable attics
 - d. Smoke alarms shall be installed not less than 3 feet (914 mm) horizontally from the door or opening of a bathroom that contains a bathtub or shower unless this would prevent placement of a smoke alarm required by this section.

- B. Carbon Monoxide alarms are installed in accordance with the approved manufacturer's instructions and per the requirements of the California Residential Code, in dwelling units where either the dwelling unit contains a fuel-fired appliance or fireplace and/or the dwelling unit has an attached garage with an opening that communicates with the dwelling unit.
 - a. Outside of each separate sleeping area in the immediate vicinity of the bedrooms
 - b. On every occupiable level of dwelling unit, including basements.
 - c. Where a fuel-burning appliance is located within a bedroom or its attached bathroom, a carbon monoxide alarm shall be installed within the bedroom.
