Construction & Demolition Waste Management Plan (WMP)

C&D Debris Recycling Program
Department of Public Works & Planning

Phone: (559) 600-4540 / Fax: (559) 600-4201
www.co.fresno.ca.us/condemo

Step 1: This Waste Management Plan - Determination Form (Page 1) must be submitted and approved prior to permit issuance.

The Integrated Waste Management Act of 1989 (AB 939) requires cities and counties to reduce, by 50%, the amount of waste disposed of in landfills by the year 2000 and beyond, or potentially incur fines of up to \$10,000 per day. This Waste Management Plan and the Waste Log/Acknowledgements are designed to assist County compliance with this State mandate, and provide builders with a means of documenting the waste reduction requirements included in the latest edition of the California Green Building Standards Code (CALGreen, Section 4.408.1-5)

Projects are required to submit their Waste Log, Acknowledgement Form, and Weight Receipts prior to Certificate of Occupancy (CO) issuance. **Failure to provide documentation of solid waste (trash) reporting, reporting of waste diversion less than 50%, and failure to provide adequate weight receipts, may render a WMP non-compliant and owner subject to fines.**

New construction is estimated to generate 4 lbs of waste per square foot. Demolition projects are estimated to generate 50 lbs of waste per square foot.	
Based on the square footage of your project, your gross waste generated is estimated to be:	
Diversion Requirement 50% of all debris generated during the course of your project must be recycled, salvaged, or reused. C&D debris may be source-separated, which may be hauled by anyone, or mixed into one container and either self-hauled or hauled by a permitted hauler to an approved mixed C&D sorting facility. Please see the Definitions section on the next page for more information. You MUST document your SOLID WASTE and submit waste receipts, in order to calculate a diversion percentage.	50% of all debris must be recycled

SUBJECT: Advisement of Waste Management Plan - Project Acceptance
Permit No: 15 106588
Permit Address: 42288 MAJESTIC - SHAVER LAKE

IMAGE CUSTOM HOMES INC,

The Resources Division has two levels of Waste Management Plan (WMP) verification to help meet diversion goals. Our first level of review has been completed, and found that your submittal of documentation has met a cursory level of "project acceptance", allowing the release of your Certificate of Occupancy.

THIS LETTER APPROVES WMP RELEASE FOR CERTIFICATE OF OCCUPANCY.

A second degree of review will assess specific details regarding your diversion compliance, to verify that 65% of your overall materials which were salvaged, recycled, or similar, apart from solid waste that was sent to a landfill facility. A failure to meet diversion reporting compliance will be referred to code enforcement *even if a Certificate of Occupancy has been released.*

The County of Fresno requires adherence to a WMP at all times during a construction/demolition project, as outlined in the California Green-Building Standards Code, and defined in the California Code of Regulations¹. Remember to always keep a thorough log of all materials being reused, donated, or sold for repurposing, *as well as those materials disposed of.*

We thank you for safekeeping your original weight tags and receipts from landfills and recycling centers as they are required to validate your compliance efforts.

Should you require further assistance regarding construction & demolition diversion and recycling, please feel free to contact our office at condemo@co.fresno.ca.us or (559) 600-4259.

Regards,

Irene Duran
