NARRATIVE

The Van Ness Boulevard Estates Lighting District (CSA OV) was formed in 1962 to provide street lighting for the residential area south of Herndon Avenue, along the west side of Van Ness Boulevard. Lighting is provided by a contract with PG&E. There are 251 parcels in CSA OV.

ANNUAL CHARGE FOR SERVICE

The first step of the Proposition 218 process to increase annual fees to \$33.00 per parcel for FY 2006-07 was conducted on November 14, 2006. There was “no majority protest” received. The ballot hearing, which is the second step of the Proposition 218 process for CSA OV, was conducted and approved by property owners and adopted by the Board of Supervisors on January 9, 2007. The increased fees were implemented in FY 2006-07. CSA OV fees, pursuant to the approved rate structure, are subject to an annual inflation increase not to exceed 3%. In FY 2021-22 staff began to increase appropriations to allow funds for repairs and replacements due to PG&E and the Public Utilities Commission approving a category rate change, which enabled PG&E to remove CSA OV lights from their ownership and maintenance responsibility.

AUBERRY ROAD, WEST OF ALDER SPRINGS
(MILE HIGH)

FISCAL YEAR 2025-26

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:

June 2025

NARRATIVE

Waterworks District 37 (WWD 37) was established in 1961 to provide community water for the subdivision known as Mile High, near Meadow Lakes, and includes a portion of Bald Mountain Road near Auberry Road. The subdivision contains 46 residential lots, of which 41 are receiving water services, and 1 Out-of-District water user.

All water meter heads were replaced in FY 24-25 as part of an ARPA funded water meter replacement project.

FY 2025-26 Budget

WWD 37 increased appropriations for a planned corrosion control project and to meet rising costs. Revenue is expected to increase due to a recent Proposition 218 rate increase.

PROPOSITION 218

The former rate structure was adopted pursuant to Proposition 218 requirements on June 3, 2014, with fees becoming effective on July 1, 2014. Fiscal Year 2018-19 was the last fee inflation increase associated with the 2014 Proposition 218. However, the District expenses continue to rise due to aging infrastructure and needed repairs.

Due to these increased costs, a Proposition 218 rate increase was approved in FY 2024-25 to make up the shortfall and increase reserves.

SKY HARBOR SUBDIVISION
(MILLERTON LAKE PARK ESTATES)

FISCAL YEAR 2025-26

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

June 2025

NARRATIVE

Waterworks District 38 (WWD 38) was formed in 1965 to provide community water and sewer for the Sky Harbor subdivision, also known as Millerton Lake Park Estates. WWD 38 is located approximately six miles north of where Sky Harbour Road begins from Millerton Road. The subdivision contains 230 parcels, of which 66 are connected and served by a water meter and 63 are connected to sewer. In addition, there is one Out-of-District user of water and sewer services, the South Fine Gold Picnic Area, which is part of the Millerton Lake State Recreation Area.

Monthly fees for water services are billed on a bi-monthly basis. All water services in the subdivision are metered. There is a base rate for the service and rates for the additional water consumption. There is no adjustment for inflation. WWD 38 also receives a portion of property tax revenues from the State.

The wastewater treatment facility is more than 40 years old. The system needed replacement because its components are at the end of their life cycle. Staff secured a State Revolving Fund (SRF) loan for \$600,000 and a grant for \$130,000 to replace the outdated components. Construction was completed in FY 2019-20.

In FY 2018-19, it was required to get the WWD No. 38 potable water tank inspected. The tank was found to have severe corrosion and rust on the inside of the tank, prompting conversations with the WWD No. 38 Citizens Advisory Committee (CAC). Staff, with CAC approval, conducted an RFQ and had the inside of the tank repaired (sand blasted and coated) at a cost of \$121,748. The repair cost of the tank also included multiple safety items (assess safety ladder upgrade with self-closing gate, handrail, increase cage height, replace roof hatch, replace liquid level indicator, interior ladder, new vent to increase size of vent for compliance, and add multi-bolt manway) that needed to be replaced due to OSHA regulations. Additionally, the rental of potable water tanks was required to provide potable water during the repair. The cost of the rental was \$26,074, for a total cost of \$147,822.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

PROPOSITION 218

A rate adjustment proceeding was held on June 18, 2013, in accordance with Proposition 218, for domestic water and sewer services imposing a \$200.00 assessment per year per parcel. Property owners of WWD 38 approved the proposal and the Board of Supervisors adopted the new assessment. During the procedure, the Board approved action to reduce the assessment imposed by Maintenance District 1 (MD 1) from \$200.00 to \$0 per parcel for all of the 229 parcels that were in MD 1 and moved to WWD 38. These actions kept the net amount charged to the properties served by WWD 38 the same as previously paid but allowed for additional financing options for improvements. The assessments and fees will be re-evaluated in FY 2025-26.

COUNTY OF FRESNO

COUNTY WATERWORKS DISTRICT 40
SHAVER SPRINGS

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

Fresno County Waterworks District 40 (WWD 40) was established in 1971 to provide community water and sewer for the Shaver Springs subdivision located east of Tollhouse Road, near the intersection of Tollhouse Road and Shaver Springs Road. There are 96 parcels, of which 69 are developed, 23 are undeveloped, and 4 parcels are tax exempt outlots. WWD 40 also provides water to one out-of-district user.

WATER PROJECT

WWD 40 continues to experience water quality and quantity issues. The County has been working to identify a new water source that meets district's needs. In FY 2020-21, the Shaver Springs community authorized the County to purchase an existing well in the area (HOA Well). In January 2022, County staff applied to the Department of Water Resources' Small Community Drought Relief Program for funding to help secure a clean, sustainable water source for the district.

GRANT

At the end of FY 22-23, the district was awarded grant funds for WWD 40's Groundwater Project. The grant will be used to address water quantity and quality challenges by constructing a new well. The project was advertised in February 2025, with construction anticipated to begin by Summer 2025 – program number 91938.

PROPOSITION 218

The current rate structure was adopted by the Board of Supervisors on January 9, 2007, in accordance with Proposition 218 requirements. The increased monthly fees took effect on March 1, 2007. Since then, District expenses have continued to rise due to aging infrastructure and necessary repairs. A Proposition 218 Protest Hearing is anticipated in June 2025. The outcome of the hearing will determine whether new rates will be implemented in FY 2025-26.

NARRATIVE

Fresno County Waterworks District 41 (WWD 41) was formed in 1972 to provide community water and sewer for developing properties south of Shaver Lake located in Township 10. Subdivisions connected to the water and sewer systems include Ockenden, Ridge Top, Dogwood, Appleridge Meadowridge, Granite Ridge, Wildflower, Bretz Mountain and Timber Ridge. Since Zone 1 (sewer) does not serve all areas, separate budgets are provided for water and sewer.

Water and sewer user charges are collected on a bi-monthly basis and standby charges are collected annually along with property taxes.

MAINTENANCE

WWD 41 replaced approximately 2.5 miles of asbestos concrete pipe which was completed in FY 2021-22. A hydro tank replacement is expected to be completed by the end of 2025.

An administrative boundary change for WWD 41W is in progress and a rate adjustment proceeding is expected in FY 2025-26 to help rebuild district reserves, which were severely depleted upon completion of the A/C pipe replacement project.

COUNTY WATERWORKS DISTRICT 42
ALLUVIAL AND FANCHER AVENUES

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

Fresno County Waterworks District 42 (WWD 42) was formed in 1972 to provide community water for the rural residential area located northeast of the intersection of Alluvial and DeWolf Avenues, and southeast of SR 168, east of the City of Clovis. WWD 42 currently serves 104 residential customers. Forty-three parcels within the area are not provided community water by WWD 42 as they are either undeveloped or served by private wells.

Currently all 104 residences have water meters, which were installed at the request of the Citizens Advisory Committee (CAC) to monitor water usage. The meters are not currently used for billing purposes as all customers are charged a flat rate for water use.

Water charges are collected on a bi-monthly basis.

PROPOSITION 218

The current rate structure was adopted pursuant to State Proposition 218 requirements on February 5, 2008, with the newly adopted rates becoming effective on March 1, 2008. The adopted rate structure left intact the collection of an annual Health Surveillance Fee of \$2.56 per year/per parcel, which is included on the property tax bill.

As identified in the Master Schedule of Fees, water charges are based on the size of pipe serving the residences. Currently all residences are served by 1½ inch connections.

On January 21, 2020, the Fresno County Board of Supervisors conducted a public hearing in accordance with State Proposition 218 concerning a proposed water service fee increase for WWD 42. As a result of a majority protest, the proposed fee increase was not passed and WWD 42's fees remained the same. In FY 2025-26, the district will continue exploring options for a new rate.

GRANTS

All water meter heads were replaced in FY 24-25 as part of an ARPA funded water meter replacement project.

COUNTY SERVICE AREA 1
TAMARACK ESTATES
(WATER/SEWER/SNOW REMOVAL)

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 1 (CSA 1) was formed in 1962 to provide community water, sewer, and snow removal services for the subdivision known as Tamarack Estates, located nine miles south of Huntington Lake. The subdivision contains a total of 45 lots, 40 of which are developed, 4 are undeveloped, and one contains a 10-unit motel.

Beginning in FY 06-07 the water and sewer service budgets were segregated from snow removal services. The water and sewer budget receives annual ready-to-serve assessments from both developed and undeveloped lots. The water and sewer budget also receives a portion of property tax revenues collected by the State. The snow removal budget receives annual assessments for both developed and undeveloped lots but does not receive a portion of the property taxes.

PROPOSITION 218

Water and Sewer

The Board of Supervisors adopted an increased water and sewer assessment on August 4, 2020, following a Proposition 218 ballot process.

Snow Removal

The Board of Supervisors adopted an increased snow removal assessment on October 7, 2014, following a Proposition 218 ballot process.

ANNUAL SERVICE FEE

The 40 developed residential parcels and one (1) ten-unit motel are provided with water, sewer, and snow removal services. The benefit to each residential parcel is relatively equal as all are used as a single-family residence.

The total motel water/sewer service charge is 3.8 times the total rate for a developed residential parcel. The motel's rate is based on a comparison of the number of fixture units, as defined in the Uniform Plumbing Code, in the motel to the average residential unit within the district. The motel's charge for snow removal does not include snow removal services within the motel property boundary, only on the shared public roads.

GRANT

In FY 22-23, the district was awarded grant funds for water infrastructure replacement. Construction commenced in FY 2024-25 and is anticipated to be completed in FY 2025-26 (Program No. 91856).

FISCAL YEAR 2025-2026

June 2025

NARRATIVE

County Service Area 2 (CSA 2) was formed in 1962 to provide requested services for the subdivision known as Tenaya Estates consisting of 142 parcels. The subdivision is located southeast of Fruit and Sierra Avenues. The services provided consist of maintaining a two and one-half acre park, 1,500 linear feet of walkway areas, and park and walkway lighting.

In May 2007, the property owners formed a public benefit corporation named “Tenaya Estates, Inc.” (TEI) for the purpose of maintaining the park. Beginning in FY 07-08, the County entered into an agreement with TEI which allows TEI to oversee the operations and maintenance of the park, with the County providing reimbursement of costs using CSA 2 funds. The agreement with TEI was amended for the fourth time on May 21, 2024, to extend the term of the agreement. The agreement now expires on June 30, 2029. County staff continues to administer the budget, which includes charges from Administration, County Counsel, General Ledger Accounting, and PeopleSoft Financial charges.

PROPOSITION 218

On June 17, 2014, a rate adjustment proceeding was conducted. After the Board made a finding that there was no “majority protest,” they adopted an increased assessment. The increase assessment was requested by the community in order to adequately cover the annual operations, maintenance expenses, and accumulate reserves that will allow the CSA 2 to conduct periodic replacement of major facilities.

GRANTS

In FY 22-23, Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program, which was authorized by the American Rescue Plan Act, allocated \$200,000 to CSA 2 for improvements to Tenaya Park. Improvements are expected to be completed by the end of the year 2025.

NARRATIVE

County Service Area 5 (CSA 5) was formed in 1963 to provide services to the subdivision of Wildwood Island. This District is located on the east side of the Kings River, approximately two miles northeast of Centerville, north of Piedra Road. In 1966, adjoining lands were subdivided as Wildwood Meadows and annexed to the CSA 5 service area.

CSA 5 contains 156 parcels, 151 of which are single-family residential parcels (147 have been developed). Four lots remain vacant and five are unbuildable outlots. The outlots are not assessed.

Services provided consist of maintaining the community water system. In the past, CSA 5 has also provided services related to the recreational lake and flood control facilities, but these services have been discontinued. Since these services are no longer provided, CSA 5 has stopped charging the recreation fee (\$4.62 annually) related to the lake beginning in FY 10-11.

Throughout FY 12-13 CSA 5 conducted a Groundwater Under Direct Influence of Surface Water (GWUDI) study required by the California Department of Public Health. Results from the study were received in FY 13-14 and displayed influence on the wells from surface water. The system completed the project to address this in FY 19-20, which included putting the system under constant chlorination.

In FY 24-25, CSA 5 had 2 fire hydrants and a well pump replaced. CSA 5 had elevated lead levels detected in its water and is currently conducting increased water quality monitoring, a lead public education program, and evaluation to determine what, if any, corrosion control measures are needed.

ANNUAL CHARGES

All 147 developed parcels in CSA 5 are approximately the same size, contain single-family residences, and are not metered for water usage. The benefit of water service to these parcels is relatively equal, so all are charged the same rate.

The benefit of the water service to the two Out-of-District water users is charged at one and one-half times the CSA 5 rate (1.5 x the regular rate). The two Out-of-District users are billed by the Business Office in two annual installments equal to one-half of their total annual water service charge. These payments are due in December and April. Out-of-District users are billed separately since CSA 5 users are charged their fees as a line item on their property tax rolls, but Out-of-District user charges cannot be included as a line item on property tax bills.

PROPOSITION 218

The Board of Supervisors adopted an annual fee increase at a public hearing on July 15, 2014, pursuant to Proposition 218 requirements. The rate increase allowed CSA 5 to accumulate funds for the Piped Loop and Tank Replacement Project, which is needed to comply with State regulations for water virus removal for potable water and chlorination contact time. The rate increase also included the reassignment of accumulated tank replacement funds in order to fund a portion of the previously mentioned projects.

The Board of Supervisors adopted a revised annual water service fee at a public hearing on July 14, 2015, pursuant to Proposition 218 requirements. The revised rate was proposed because the previous fee was set to expire at the end of FY 14-15. The rate includes a component to cover normal operation and maintenance costs, and a second component to build reserves for known capital replacement costs. The revised fee also included a maximum annual inflation of 5%. FY 19-20 was the last year of the rate increase.

NARRATIVE

County Service Area 7 (CSA 7) was formed in 1963 to provide maintenance of storm drainage facilities and street lighting for subdivisions being developed along the San Joaquin River Bluffs near Valentine Avenue. Maintenance of storm drainage facilities has been assumed by the Fresno Metropolitan Flood Control District. Presently, CSA 7 provides street lighting for two non-contiguous subdivisions that are located along the San Joaquin River Bluffs near Valentine Avenue, and south of Herndon Avenue and east of Palm Avenue.

Due to PGE changing the way lights are rated in May 2021, CSA 7 has changed from LS1-A (PGE owned and maintained) to LS2-A (Privately owned and maintained). The street lighting electricity is provided by a contract with PG&E.

ANNUAL CHARGES

Street lighting provides a benefit for residents by making nighttime travel safer as residents move from place to place by foot, bicycle, or vehicles. The lighting also provides a benefit through general nighttime security and well being for the residents. Owners of developed parcels share this benefit equally and should, therefore, equally share the cost of the service.

Vacant parcel owners, however, would not benefit from the service since they would not normally be in the area after dark. Vacant parcel owners should be excluded from the service charge.

The annual fee for street lighting is collected from 155 developed parcel owners.

In FY 2019-20, staff hired a crew to survey the street lighting infrastructure to determine the condition of the street lighting system. Based on the results of the survey, staff increased appropriations for FY 2020-21 to replace light bulbs, but no infrastructure repairs were required at this time. In 2021-22 staff began to increase appropriations to allow funds for repairs and replacements due to PGE and the Public Utilities Commission approving a category rate change, which enable PGE to remove CSA 7 lights from their ownership and maintenance responsibility.

NARRATIVE

County Service Area 7, Zone "D" (CSA 7D) is located west of the City of Fresno, near the intersection of Clinton Avenue and Marty Avenue. CSA 7D encompasses Tract 4503 and contains 6.48 acres subdivided into 26 parcels. CSA 7D was formed on January 25, 1994, to provide maintenance of the included 0.30 miles of roadways, (N. Marty, W. Vassar, and N. Selland Avenues), street lighting, landscaping, and road maintenance.

The landscape area covers approximately 18 feet from the curb to the wooden fence on West Clinton Avenue, which covers approximately 250 lineal feet of landscaping.

The street lighting is provided by a contract with PG&E. One bulb was replaced in FY 24-25. There has been no wire theft since the last repair in FY 13-14, which included covering utility boxes with concrete in order to help deter additional theft in the future.

ANNUAL CHARGES

The portion of the assessment established for road maintenance is to maintain 0.10 miles of road on North Marty Avenue, 0.06 miles of road on West Vassar Avenue, 0.04 miles of road on West Clinton Avenue and 0.10 miles of road on North Selland Avenue. It has been determined that the costs for the road maintenance should be shared equally among the property owners of the 26 parcels included within the CSA 7D.

Annual street lighting assessment is collected from 26 developed parcel owners.

June 2025

NARRATIVE

County Service Area 10 (CSA 10) was formed in 1963 to provide landscape maintenance of a roadway median and bridle paths in Cumorah Knolls, provision of water operations and maintenance were subsequently added. CSA 10 is located northwest of Shaw and Academy Avenues and has a total of 47 lots.

In FY 2024-25, all water meter heads were replaced as part of an ARPA funded water meter replacement project. The new meters are expected to increase revenue for the district for FY 2025-26.

FEES AND ASSESSMENTS

Monthly fees for water services are billed on a bi-monthly basis. All of the water services in this subdivision are metered. There is a base rate for the service and rates for the additional water consumption based on the pipe diameter. Yearly assessments are collected for road median landscape maintenance, street lighting, State water surveillance fees, and a surcharge for water system improvements. There is no inflation adjustment on the assessments. CSA 10 also receives a portion of property tax revenues from the State.

PROPOSITION 218

A Proposition 218 process for a fee increase was approved by CSA 10 property owners and adopted by the Board of Supervisors on February 25, 2014. The fee increase included an inflation factor based on the CPI-U not to exceed 5% each year for five years, ending in FY 2018-19.

Revenues have not kept up with expenses over the past several years. A Proposition 218 rate increase is expected in FY 2025-26 to make up the shortfall and rebuild reserves.

AGREEMENT WITH SANGER UNIFIED SCHOOL DISTRICT

On May 20, 2014, CSA 10 entered into an agreement with Sanger Unified School District (SUSD) to provide Fairmont Elementary School with clean, safe drinking water as an Out-of-District water user. In return, SUSD through a grant from the California Department of Public Health provided over \$300,000 in infrastructure improvements to the CSA 10 water system.

NARRATIVE

In late 2000, the Fresno County Local Formation Commission (LAFCO) annexed the 29 lot Mansionette Estates No. 3 subdivision to County Service Area 10, Zone A (CSA 10A). CSA 10A is located south of Herndon Avenue between DeWolf and Highland Avenues and provides water service, street lighting, landscape maintenance, wetlands monitoring and maintenance, and road maintenance.

FEES AND ASSESSMENTS

Monthly fees collected for water services are billed on a bi-monthly basis. Each residence has a metered service for domestic use and a separate metered service for landscape irrigation. Fees for each service consist of a basic flat rate with a water allocation and two tiered rates based on additional water usage. There is no inflation adjustment for water service fees.

Annual assessments are collected with property taxes for landscape maintenance of a road median, road maintenance, wetlands monitoring, and street lighting. Assessments are adjusted annually based on the rate of inflation, but not to exceed 3%. The street lighting assessment is not adjusted for inflation.

PROPOSITION 218

On November 27, 2001, the Board of Supervisors adopted fees for water services, and assessments for wetlands monitoring and maintenance, landscape maintenance and road maintenance through a Proposition 218 proceeding.

On December 11, 2001, the Board of Supervisors adopted assessments for street lighting through a Proposition 218 proceeding.

NARRATIVE

County Service Area 14 (CSA 14) was formed in 1965 to provide services for the subdivision of Belmont Manor, Tract 2031, which is located at Belmont and Leonard Avenues. CSA 14 consists of 41 single family residential parcels. The services provided to the residents are storm drainage facilities, community water, and street lighting.

Department of Public Works and Planning staff maintain the community water system. PG&E is contracted to provide street lighting.

PROPOSITION 218

On November 12, 2013, the Board of Supervisors approved an increased assessment for domestic water service, street lighting, and drainage through the Proposition 218 process.

A Proposition 218 procedure is tentatively planned for FY 25-26.

1,2,3 – TRICHLOROPROPANE (1,2,3-TCP)

On December 14, 2017, the new regulation adopted by the State Water Resources Control Board's Division of Drinking Water for the maximum contaminant level (MCL) for 1,2,3-TCP went into effect. The initial sampling requirements started in the first quarter of 2018. The CSA 14 system was issued Compliance Order # 03-23-18R-012 on March 22, 2018 due to an MCL violation. Staff is working with the community and the State to remediate the problem. On December 11, 2019, CSA 14 received \$2 million as a settlement through an agreement with The Dow Chemical Company and Shell Oil Company. The County of Fresno plans to use the funds to find a solution for the 1,2,3-TCP issue. In Fiscal Year 2020-21, the County of Fresno hired Provost & Pritchard Consulting Group to complete a feasibility study to determine viable options. County is currently pursuing connecting to the City of Fresno water system as this could be a long-term sustainable solution for the community.

GRANTS

All water meter heads were replaced in FY 24-25 as part of an ARPA funded water meter replacement project.

NARRATIVE

County Service Area 19 (CSA 19) was formed in 1967 to provide street lighting for the parcels along Hampton Avenue, east of Hayes Avenue. There are a total of 21 developed lots and 4 undeveloped parcels in CSA 19. There are six streetlights within CSA 19, which are maintained through a contract with PG&E.

ANNUAL CHARGE FOR SERVICE

Street lighting provides a benefit for the residents by making nighttime travel safer as they move by foot, bicycle, or vehicle from place to place. The lighting also provides a benefit through general nighttime security and well-being for the residents. All owners of developed parcels share these benefits. The owners of developed parcels should, therefore, equally share the cost of the service.

Vacant parcel owners, however, would benefit little from the service since they would not normally be in the area after dark. They should, therefore, be excluded from the service charge.

PROPOSITION 218

Based on the Proposition 218 ballot hearing on June 18, 2002, the existing annual assessment for street lighting services for the developed property owners will continue at \$70.70 per parcel.

NARRATIVE

County Service Area 23 (CSA 23) was formed in 1970 to maintain the community water system in Exchequer Heights. This subdivision is located approximately three miles southwest of the Dinkey Creek area near the intersection of Exchequer Drive and Dinkey Creek Road. There are 16 residential parcels within the CSA 23; all but one is developed.

Maintenance of the water system was formerly provided by the Exchequer Heights Property Owners Association's certified operators. Special Districts staff now provides the maintenance and operations of the water system.

PROPOSITION 218

On December 15, 2015, the annual water service fee was approved by the Board of Supervisors through the Proposition 218 proceeding. The increase was intended to raise additional funds for infrastructure improvements including repair to the roof of the booster pump building in FY 2017-18, which has been completed. The increase also included funds for the purchase of two well pumps, if needed. The fee increase was also necessary to generate a general reserve equal to 50% of the average of the last three completed fiscal years operations and maintenance costs within five years, pursuant to County of Fresno Board of Supervisors policy. This rate structure includes the cost for the previously applied Health Department surveillance fee of \$17.32 per parcel, which is no longer included as a separate fee.

NARRATIVE

County Service Area 30 (CSA 30) was formed in 1980 to provide services for the subdivision known as El Porvenir, located on the west side of Derrick Avenue (Highway 33) near Clarkson Avenue. CSA 30 consists of 56 recorded residential lots, a County park, and three County owned outlots. Services provided to the residents include maintenance and operations of water and sewer systems, street lighting and refuse disposal. The park and County lots are not charged for any services. In the future, one or more of the County lots may be sold and developed.

The benefit of water service to the current 56 occupied parcels within CSA 30 is relatively equal since all the water is for single-family residential use.

Charges for Water

CSA 30 purchases raw water from Westlands Water District (Westlands). Since 2014, the fees for Municipal and Industrial raw water have greatly fluctuated which has caused financial instability for the district. The most recent rate change occurred in November 2024 when rates were changed to \$182.43 per acre foot.

Proposition 218

A water rate adjustment procedure in accordance with Proposition 218 was conducted in February of FY 22-23. Property owners protested the rate proposal therefore the Board of Supervisors did not adopt the proposed rates.

A new rate adjustment procedure was conducted in June of FY 22-23 with revised water rates to account for increased operation and maintenance costs. Property owners did not protest the rate proposal therefore the Board of Supervisors adopted the proposed rates. New water rates became effective July 1, 2023, and include a fixed base fee, variable fee for operational costs, and variable commodity fee for water usage. The approved rates include grant funding from the State, which is being used to subsidize the monthly water fees.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

Grants

The CSA 30 system received Compliance Order 03-12-08O-019 due to a Trihalomethanes (TTHM) violation on November 3, 2008. On November 7, 2014 the system was issued Compliance Order 03-23-14R-023 which replaced the previous compliance order. The new compliance order was due to a TTHM and Haloacetic Acid (HAA5) violation. The surface water treatment plants at CSA 30 and County Service Area 32 (CSA 32) are close in proximity and have similar disinfection byproduct issues. The two systems are old and may not provide optimal total organic carbon (TOC) reduction to help in control of TTHM. Contact time (CT) may not be achieved under all

conditions according to the permit issued by State Water Resources Control Board (SWRCB) in January 2009. Additionally, one of the existing filtration plants is an inline filtration plant, which SWRCB has determined is not acceptable to treat water obtained from the California Aqueduct.

Extensive research conducted during the planning and design phase of the consolidation project for CSAs 30 and 32 determined that constructing a new surface water treatment facility was not feasible due to high costs for operation and maintenance. Transitioning to groundwater is the most viable option. CSA 30 received grant funding for the planning, design and construction of the groundwater project.

In FY 18-19, CSA 30 received \$325,000 in emergency grant funding to address a considerable leak due to corrosion in the filter unit at the district's surface water treatment plant. The California Department of Water Resources provided \$275,000 and the State Water Resources Control Board provided \$50,000 to fund the purchase and installation of a new filter unit.

In FY 23-24, the district was approved for grant funding to assist with the operation and maintenance of the water system through the Safe and Affordable Funding for Equity and Resiliency Drinking Water Program through an agreement with the State Water Resources Control Board. The funding will partially subsidize CSA 30's water rates for five years.

FISCAL YEAR 2025-2026

June 2025

NARRATIVE

County Service Area 31 (CSA 31) was formed in 1978 to provide fire protection and recreational facility services to the Shaver Lake community.

There are 2,661 parcels located within the CSA 31 boundaries which include cabins, homes, multiple-living units, stores, offices, restaurants, garages, service stations, and vacant parcels. Of the 2,661 parcels, 2,062 are developed and 599 parcels are vacant. Assessments are based on land use and parcel size and are more thoroughly described below:

ANNUAL ASSESSMENT FOR SERVICES

Equivalent Dwelling Unit (Basic Assessment for Fire Protection) = \$131.72

1. VACANT PARCELS

There are 599 vacant parcels in CSA 31, which vary in size.

Owners of vacant parcels benefit from the fire protection service as the Fire Department does respond to fires on vacant parcels. There is a benefit received through protection of trees and landscaping and in the reduced risk of spreading fires to adjoining land and structures. The benefit is not as great as developed parcels therefore their assessment should be adjusted accordingly. The following assessment amount has been adjudged equitable by the Shaver Lake Citizens Advisory committee and the Department to be in line with the benefit received.

<u>Parcel Size</u>	<u>Assessment</u>
10.00 acres or less	\$20.96
10.01 acres to 50.00	\$67.14
Over 50.00 acres	\$109.08

2. RESIDENTIAL PARCELS

The services provide an equal benefit to residential parcels in that the fire protection service and recreation facilities are available equally to all, as needed. This includes multiple-living units such as condominiums, duplexes, fourplexes, and the 16 cabins of Rock Haven, Inc. The size of the residence or frequency of occupancy does not influence the benefit of the services. The assessment for residential parcels should, therefore, be an equal amount per residence.

For comparison with other types of land usage, an assessment for a single-family residential parcel will be referred to as a basic assessment.

3. COMMERCIAL PROPERTIES

The benefit from the services for the primary use of a commercial parcel would not be greatly different from that of a residential parcel.

This is based on the fact that a building is involved which may have a need for fire protection service, and that people are present from time to time who may utilize the recreation facilities. As with residential parcels, size of the structure is not a major influencing factor. The proposed assessment for the primary use of a commercial parcel should, therefore, be the same as a basic assessment (single family residence).

Some commercial properties have additional uses and/or residential quarters. These parcels will receive more benefit from the services than a single-use parcel as there would be additional acres requiring fire protection and would involve additional occupants. Since the additional use may be within the same structure as the primary use, the additional benefit from the services will be one-half that of the primary use.

There is a point, however, at which the assessment for services for additional uses of living quarters would become unreasonable when compared to the benefit of the services. The advisory committee and this Department have adjudged that the maximum charge for any commercial property should be no greater than four times the basic assessment amount.

4. TRAILER AND MOBILE HOME PARKS

Trailer parks in CSA 31 vary in size from six to 133 spaces. To be equitable in the assessment for this classification, the size of trailer and mobile home parks are divided into four groups: i.e., 1 to 15 spaces, 16 to 30 spaces, 31 to 45 spaces, and over 45 spaces.

Factors which must be considered in determining the assessment for this classification are:

1. The facilities are open less than six months per year and the premises are vacant when closed.
2. Trailers are small in comparison to structures. The benefit for a trailer park with up to 15 spaces has been adjudged by the Advisory Committee and this Department as no greater than that of a residence or commercial parcel. Therefore, the assessment for this group should be the same as the basic assessment. The benefit and assessments for each of the other groups in this classification would increase correspondingly, up to a maximum of four times that of a residence.

The recommended assessments for trailer parks are as follows:

<u>GROUP</u>	<u>NUMBER OF SPACES</u>	<u>ANNUAL CHARGE</u>
I	1 – 15	One time the basic assessment
II	16 – 30	Two times the basic assessment

NARRATIVE

Zone “B” of County Service Area 31 (CSA 31B) was formed in 1984 to provide a separate funding mechanism for the community sewer system that serves only those properties that benefit from the service. CSA 31B consists of the Shaver Lake Village and Camp Edison.

The sewage collection and treatment facilities were constructed through the Clean Water Grant Program.

PROPOSITION 218

The Board of Supervisors adopted increased fees on May 8, 2007, resulting from a lack of a “majority protest” by the property owners following a rate adjustment proceeding. The annual increased fees first became effective in FY 2007-08 and were included on the FY 2007-08 property tax bill.

ANNUAL FEE FOR SERVICE

Operational costs for CSA 31B are apportioned to the property owners based on “Equivalent Dwelling Units” (EDUs), the same method to apportion construction cost for the system.

No annual inflation fee adjustment is needed as CSA 31B meets the Board’s policy of a 50% reserve requirement.

NARRATIVE

County Service Area 31, Zone “G” (CSA 31G) was formed in 2006 with the first budget in FY 2007-08 to provide Outlot and Open Space Maintenance. CSA 31G was created by Tract Map 5276 for the Quartz Mountain Subdivision and is located in the Shaver Lake Bretz Mountain Village area in the general vicinity of Bretz Road and Blue Canyon Road. CSA 31G contains 104 parcels.

Maintenance of the open space area will equally benefit all property owners within CSA 31G.

PROPOSITION 218

The Board of Supervisors formed CSA 31G after accepting the Engineer’s report and conducting a rate adjustment proceeding.

The base assessment was reduced in the fourth year after a reserve was developed. Assessments may be adjusted each year for inflation, not to exceed 3% for the first sixteen years.

MAINTENANCE

CSA 31G appropriated \$20,000 of the district’s reserve funds for the potential removal of dead and dying trees in FY 2025-26.

COUNTY SERVICE AREA 32
CANTUA CREEK

FISCAL YEAR 2025-2026

Submitted By:

June 2025

NARRATIVE

County Service Area 32 (CSA 32) was formed in 1981 to provide services for the Cantua Creek farm labor housing development. This subdivision is located at Clarkson Avenue, west of San Mateo Avenue in the community of Cantua Creek. There are 81 parcels in the subdivision. Services provided by CSA 32 include community water, sewer, garbage collection, and street lighting. Of the 81 parcels, there are 76 single-family residential units, Cantua Elementary School, school homes, and a mobile home park. Three previous out-of-district users have been annexed into the CSA 32 water system, along with Cantua Creek Vineyards IV, and the Childhood Education Center. Cantua Creek Vineyards IV will start receiving water services once the groundwater wells project (detailed below) is complete.

Charges for Water

CSA 32 purchases raw water from Westlands Water District (Westlands). Since 2014, the fees for Municipal and Industrial raw water have greatly fluctuated which has caused financial instability for the district. The most recent rate change occurred in November 2024 when rates were changed to \$182.43 per acre foot.

Proposition 218

A water rate adjustment procedure was conducted in FY 22-23 to account for increased operation and maintenance costs. Property owners did not protest the rate proposal therefore the Board of Supervisors adopted the proposed water rates. New water rates became effective March 1, 2023, and include a fixed base fee, variable fee for operational costs, and variable commodity fee for water usage.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

Grant

The CSA 32 system received Compliance Order 03-12-080-003 due to a Trihalomethanes (TTHM) violation on February 14, 2008. On November 7, 2014 the system was issued Compliance Order 03-23-14R-024 which replaced the previous compliance order. The new compliance order was due to a TTHM and Haloacetic Acid (HAA5) violation. The surface water treatment plants at CSA 32 and County Service Area 30 (CSA 30) are close in proximity and have similar disinfection byproduct issues. The two systems are old and may not provide optimal total organic carbon (TOC) reduction to help in control of TTHM. Contact time (CT) may not be achieved under all conditions according to the permit issued by State Water Resources Control Board (SWRCB) in January 2009. Additionally, one of the existing filtration plants is an inline filtration plant, which SWRCB has determined is not acceptable for water obtained from the California Aqueduct.

Extensive research conducted during the planning and design phase of the consolidation project for CSAs 30 and 32 determined that constructing a new surface water treatment facility was not feasible due to high costs for operation and maintenance. Transitioning to groundwater is the most viable option. CSA 32 received grant funding for the planning, design, and construction of the groundwater project.

Current projects include:

- Groundwater wells – funded by the State Water Resources Control Board Division of Financial Assistance grant, program number 91293

COUNTY SERVICE AREA 33
MALAGA - McNEILL PARK

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

June 2025

NARRATIVE

County Service Area 33 (CSA 33) was formed in 1981 to provide street lighting for the Malaga Community. In 1984, the McNeill-Fresno Industrial Park and adjacent area, referred to herein as the Shapazian-McNeill Annexation, were annexed to the County Service Area. Only street lighting is provided throughout CSA 33 while the Shapazian-McNeill Annexation receives both street lighting and landscape maintenance. CSA 33 contains 220 developed parcels including six industrial parcels charged annually for landscape maintenance.

ANNUAL CHARGE FOR LANDSCAPE MAINTENANCE SERVICE

Landscape maintenance is provided for only the properties in the Shapazian-McNeill annexation.

The landscape maintenance would provide little benefit for vacant parcels since the owners would not frequent the area.

At present, there are six developed parcels in the Shapazian-McNeill Annexation. Their benefit from the service has been adjudged equal and funding should be shared equally.

ANNUAL CHARGE FOR STREET LIGHTING SERVICE

Street lighting provides a benefit for residents of a community by making nighttime travel safer as they move by foot, bicycle, or vehicle from place to place within the community. All owners of developed properties share these benefits regardless of zoning or use of their property; therefore, they share equally the cost of the service.

Vacant property owners would not benefit from the service since they would not normally be in the area after dark. They should, therefore, be excluded from the charge for service.

COUNTY SERVICE AREA 34
MILLERTON NEW TOWN

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 34 (CSA 34) was formed in 1986 to provide a full range of extended governmental services for the community of Millerton New Town. CSA 34 contains 1,420 acres (including approximately 422 acres within Zone “A” and 49 acres within Zone “C”) and is located one and a half miles east of the Friant Community, along both sides of Millerton Road. The proposed community is planned to eventually include 3,500 residences plus commercial and public facilities. CSA 34 is continuing to grow and has added new zones as detailed below.

In 1989, Zone “A” was formed within CSA 34 (CSA 34A) to provide community services for the developing property known as Brighton Crest. CSA 34A was created by Tract Nos. 4048, 4197, 4241, 4388 & 4660 and shares water contract administration and lake pump repair maintenance services with CSA 34 and water and sewer services with zones C, D, F and G. Additionally, Zones “B” (CSA 34B) and “C” (CSA 34C) were formed in 2004 to provide community services to the communities known as Ventana Hills and Bella Vista, respectively. Each of the respective zones’ services and costs are addressed in a separate budget and report. CSA 34B is near, but not adjacent to the rest of CSA 34, and was added as a zone to CSA 34 for administrative purposes only. CSA 34B is not connected to the rest of the CSA 34 infrastructure and is not included within the water reservations held by CSA 34. County Service Area 34, Zone “D” (CSA 34D), was formed on December 11, 2017. CSA 34D was created for Tract No. 4968, Renaissance at Bella Vista and shares water contract administration and lake pump repair maintenance services with CSA 34 and water and sewer services with zones A, C, D, F and G. County Service Area 34, Zone “F” (CSA 34F), was formed on October 8, 2019. CSA 34F was created for Tract No. 4934, The Vistas, and shares water contract administration and lake pump repair maintenance services with CSA 34 and water and sewer services with zones A, C, D and G. County Service Area 34, Zone “G” (CSA 34G), was formed on October 8, 2019. CSA 34G was created for Tract No. 6189, Granville, and shares water contract administration and lake pump repair maintenance services with CSA 34 and water and sewer services with zones A, C, D and F.

In FY 13-14, a separate budget for the wastewater facility (CSA 34WWTF) was created and is funded through inter-fund transfers from all CSA 34 zones, except zone B. CSA 34WWTF currently serves CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G.

In FY 16-17, a separate budget for the surface water treatment plant (CSA 34SWTP) was created and is funded through inter-fund transfers from all CSA 34 zones, except zone B. CSA 34SWTP currently serves CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G.

The sole function of CSA 34 during the coming fiscal year will be to administer the water contracts and ready to serve lake pump maintenance serving CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G.

On September 15, 2009, the County entered into Agreement 09-472 with the Table Mountain Rancheria Band of Indians (TMR) whereby TMR would provide up to \$2,000,000 in materials and cash toward improvements for the water system serving, at that time, CSA 34A and CSA 34C. These improvements, collectively called the Millerton Lake Pumps and Improvements Project include (Phase I) four new submersible water pumps, an emergency tee connection, (Phase II) a 12" water main that will parallel the existing main from the pumps to approximately Millerton Road, and other associated work and materials (Reference Program # 90675). Work on Phase I was completed in the fall of 2010.

In December 2012 TMR also donated up to \$500,000 for repair of the Millerton Lake pump platform that served, at that time, CSA 34A and CSA 34C. Repairs were completed in April 2013. Final costs for this project were \$361,111 which was under the donated amount \$375,000, necessitating a refund to TMR \$13,889.

On October 22, 2013, the County entered into Amendment I of Agreement 09-472 with the TMR whereby the Board of Supervisors would approve and authorize subsequent Phase I funding to be used for the Pump Master Control Center improvements (\$314,693) and Rule 16 preparation costs (\$10,000).

In FY 14-15, TMR requested that staff obtain estimates for three separate projects. TMR agreed to complete two of the projects (Conduit Project and the SCADA Project) as part of the Winchell Cove Pipeline Project at no cost to the County. The MCC Power Supply – PGE Rule 16 Project that is anticipated to cost \$3,123,900, is still on hold until funding is secured for this project.

On April 7, 2015, Amendment II of Agreement 09-472 with the TMR was adopted to increase the estimated cost of the repairs and improvements for Phase II to \$3,986,480 for a total estimated project cost of \$5,466,460 and allow construction to begin.

On January 26, 2016, Amendment III of Agreement 09-472 with TMR was adopted to clarify language in the Agreement.

ANNUAL CHARGES

For parcels within CSA 34, not including parcels in CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G, it was determined in the adopted rate structure and engineer's report that the most equitable way for the property owners to share costs associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is on a per acre basis in the amount of \$114.08 per acre. This cost is applied to approximately 841 acres through tax assessments.

For parcels within CSA 34A, it was determined in the adopted rate structure and engineer's report that the most equitable way for property owners to share the costs

associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is based on a per Equivalent Benefit Unit (EBU) (1-EBU = 1.045 acre feet per parcel per year in CSA 34A) in the amount of \$77.29. The cost is applied to 157 parcels through tax assessments (there were 159 parcels but there have been two separate mergers where two parcels have merged).

For parcels within CSA 34C, it was determined in the adopted rate structure and engineer's report that the most equitable way for property owners to share the costs associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is based on a per Equivalent Benefit Unit (1-EBU = 0.5 acre feet per parcel per year in CSA 34C) in the amount of \$36.80. The cost is applied to 161 parcels through tax assessments.

For parcels within CSA 34D, it was determined in the adopted rate structure and engineer's report that the most equitable way for property owners to share the costs associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is based on a per Equivalent Benefit Unit (1-EBU = 0.55 acre feet per parcel per year in CSA 34D) in the amount of \$40.84. The cost is applied to 106 parcels through tax assessments.

For parcels within CSA 34F, it was determined in the adopted rate structure and engineer's report that the most equitable way for property owners to share the costs associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is based on a per Equivalent Benefit Unit (1-EBU = 0.55 acre feet per parcel per year in CSA 34F) in the amount of \$40.84. The cost is applied to 10 parcels through tax assessments.

For parcels within CSA 34G, it was determined in the adopted rate structure and engineer's report that the most equitable way for property owners to share the costs associated with water contract administration and Millerton Lake pump ready-to-serve maintenance is based on a per Equivalent Benefit Unit (1-EBU = 0.55 acre feet per parcel per year in CSA 34G) in the amount of \$40.84. The cost is applied to 133 parcels through tax assessments.

SIGNIFICANT CHANGES

Phase II of the Millerton Lake Pumps and Pipeline Project, which primarily includes installation of the second, parallel pipeline, (and now the conduit and SCADA projects) began construction in FY 15-16 and was completed up to the water line as the water was too high to continue. The project has been delayed until the water in the lake goes back down and is estimated to be completed in FY 22-23. The Motor Control Center Project for the electrical center controlling the Millerton Lake pumps were upgraded and completed in FY 15-16.

In May 2017, the failed lake pumps and under-performing pump was replaced at a total cost of \$333,994 (Reference Program # 91483). On May 16, 2017, the County, on

behalf of the Districts, entered into a financing agreement with some of the Reservation Holders (J.P.J., Inc. and Table Mountain Rancheria), to finance the repair and replacement of the lake pumps. The Agreement requires benefitting parties to reimburse an amount equal to the funds provided by the Reservation Holders from funds collected by CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G at 0% interest rate, up to \$333,994, as determined appropriate by the Debt Advisory Committee (DAC). Repayment of this loan began annually in October 2018 and will continue through October 2027. The current balance is \$100,198.

In August 2020, a check valve gasket failed at a cost of approximately \$279,305, which included two separate repair dives to complete the repair. In December 2021, there were two leaks. The lake pump check valve in the parking lot of the marina was leaking back towards the lake. The second leak was between lake pump check valve and the check valves at the pump platform. The repairs required a dive team and the replacement of a check valve, flappers and gasket.

PROPOSITION 218

Due to the wide range of services that the County provides in various parts of CSA 34, a variety of fees and benefit assessments are necessary to fund all of those services. The situation is further complicated by the fact that some facilities and administrative work necessary to provide those services are shared in CSA 34, CSA 34A, CSA 34C and CSA 34D, while other facilities for providing water and sewer services are local to CSA 34A, CSA 34C and CSA 34D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on December 11, 2017, with the formation of Zone D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on October 8, 2019, with the formation of Zones F and G. The water and sewer fees based on the Consolidated Engineer's Report adopted by the Board of Supervisors during the Prop 218 procedures on January 26, 2015, for all of CSA 34 zones were adopted on March 1, 2016. The last increase in the water and sewer fees for the rate adjustment period was July 1, 2020. The assessments and fees will be re-evaluated in FY 2025-26 for all of CSA 34 and its zones.

NARRATIVE

County Service Area 34, Zone “A” (CSA 34A), was formed in 1989 to provide community services for the development of Brighton Crest and consists of 442 acres. Currently the CSA 34A provides services to a golf course, a clubhouse, 152 single-family lots of which approximately 101 are developed or under development, and there is some undeveloped land. CSA 34A, lying on the south side of Millerton Road, was formed to provide water, sewer, street sweeping, and street lighting services to the residents of the community.

All water treated in the surface water treatment plant and served to CSA 34A, County Service Area 34, Zone C (CSA 34C), County Service Area 34, Zone D (CSA 34D), County Service Area 34, Zone F (CSA 34F) and County Service Area 34, Zone G (CSA 34G) customers is purchased from Arvin Edison Irrigation District through an annual exchange agreement.

ANNUAL CHARGES

Revenue projections for FY 25-26 include some residential overuse based on analysis of past years overuse charges. The residential overuse does consider some decrease in water use due to compliance with the Fresno County Water Conservation Ordinance.

Monthly fees are billed by the Fresno County, Public Works and Planning – Financial Services on a bi-monthly basis. All water services are metered. The base rate and tiered rate structures for residential usage are identified in the Master Schedule of Fees.

SIGNIFICANT CHANGES

Phase II of the Millerton Lake Pumps and Pipeline Project, which primarily includes installation of the second, parallel pipeline, (and now the conduit and SCADA projects) began construction in FY 15-16 and was completed up to the water line as the water was too high to continue. The project has been delayed until the water in the lake goes back down. The Motor Control Center Project for upgrading the electrical center controlling the Millerton Lake pumps and completed in FY 15-16.

In May 2017, the failed lake pumps and under-performing pump was replaced at a total cost of \$333,994. On May 16, 2017, the County, on behalf of the Districts, entered into a financing agreement with some of the Reservation Holders (J.P.J., Inc. and Table Mountain Rancheria), to finance the repair and replacement of the lake pumps. The Agreement requires benefitting parties to reimburse an amount equal to the funds provided by the Reservation Holders from funds collected by CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G at 0% interest rate, up to \$333,994, as determined appropriate by the Debt Advisory Committee (DAC). Repayment of this loan began annually in October 2018 and will continue through October 2027. The current balance is \$100,198.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

CSA 34A FINANCIALS

CSA 34A has experienced financial instability in the past primarily due to their proportionate share of the cost of the equipment failures previously discussed.

On February 7, 2017, the Board approved Resolution No. 17-121, which established the County Service Area Revolving Fund (Revolving Fund) and adopted the "County of Fresno Policy for Use of the County Service Area Revolving Fund" (Policy).

On June 20, 2017, CSA 34A received a Revolving Fund Loan from the General Fund. The repayment was structured for CSA 34A to make quarterly payments of \$7,500 plus the current pooled interest rate. As of April 30, 2025, the outstanding loan balance is \$67,500.

PROPOSITION 218

Due to the wide range of services that the County provides in various parts of CSA 34, a variety of fees and benefit assessments are necessary to fund all of those services. The situation is further complicated by the fact that some facilities and administrative work necessary to provide those services are shared in CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F, and CSA 34G while other facilities for providing water and sewer services are local to CSA 34A, CSA 34C, CSA 34D, CSA 34F, and CSA 34G. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted a new assessment for Water Contract and Pump Repair Maintenance on December 11, 2017, with the formation of Zone D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on October 8, 2019, with the formation of Zones F and G. The water and sewer fees based on the Consolidated Engineer's Report adopted by the Board of Supervisors during the Prop 218 procedures on January 26, 2015, for all of CSA 34 zones were adopted on March 1, 2016. The last increase in the water and sewer fees for the rate adjustment period was July 1, 2020. The assessments and fees will be re-evaluated in FY 2025-26 for all of CSA 34 and its zones.

COUNTY SERVICE AREA 34, ZONE "B"

FISCAL YEAR 2025-26

June 2025

NARRATIVE

County Service Area 34, Zone "B" (CSA 34B), was formed in 2004 and is located on the north side of Auberry Road, just west of the intersection of Auberry Road and Millerton Road. CSA 34B was created by Tract Map No. 5100 and is in the Millerton New Town Area. The tract contains 91 parcels of which 17 are either developed or under development.

The first CSA 34B budget was adopted in FY 05-06 to provide water services to the Ventana Hills Estates subdivision. However, the 1st budget was not activated since the water infrastructure was not constructed nor accepted by the County during FY 07-08. Operations of the water system began after acceptance of the water system in June 2008. The deed to the two water well site parcels and the water tank site parcel was accepted by the County on February 8, 2011.

ANNUAL CHARGES

Water use charges are collected on a bi-monthly basis. For the annual State Water Surveillance fee, developed parcels will be charged the fee pro-rated along with the bi-monthly billings for water service. Vacant parcels will be charged the annual State Water Surveillance fee along with property taxes. A tiered rate structure was developed by the Developer's Engineers to encourage water conservation. On June 2, 2009, a rate adjustment proposal was approved, which established the base user fees. The adjusted rate included an annual increase of 3% for inflation but after the fifth year of the rate increase, the rate remains flat.

At the beginning of FY 25-26, 17 of the 91 recorded lots are developed. The Subdivider has entered into an Agreement 05-0003 to contribute funding to CSA 34B in case of a revenue shortfall.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

NARRATIVE

County Service Area 34, Zone “C” (CSA 34C), was formed on September 14, 2004. CSA 34C was created for Tract No. 4870, Bella Vista (DBA Granite Crest Estates), and is located in the Millerton New Town area on the south side of Millerton Road, west of the intersection of Millerton Road and Winchell Cove Road. CSA 34C contains 161 residential lots. Services provided by the CSA 34C include water, wastewater, road maintenance, open space monitoring and maintenance, landscape maintenance, street lighting services, and water program management.

All water treated in the surface water treatment plant and served to CSA 34C, County Service Area 34, Zone “A” (CSA 34A), County Service Area 34, Zone “D” (CSA 34D), County Service Area 34, Zone F (CSA 34F) and County Service Area 34, Zone G (CSA 34G) customers is purchased from Arvin Edison Irrigation District through an annual exchange agreement.

ANNUAL CHARGES

Revenue projections for FY 25-26 include some residential overuse based on analysis of past years overuse charges. The residential overuse does take into account some decrease in water use due to compliance with the Fresno County Water Conservation Ordinance.

Monthly fees are billed by the Fresno County Business office on a bi-monthly basis. All water services are metered. The base rate and tiered rate structures for residential usage are identified in the Master Schedule of Fees.

SIGNIFICANT CHANGES

Phase II of the Millerton Lake Pumps and Pipeline Project, which primarily includes installation of the second, parallel pipeline, (and now the conduit and SCADA projects) began construction in FY 15-16 and was completed up to the water line as the water was too high to continue. The project has been delayed until the water in the lake goes back down. The Motor Control Center Project for the electrical center controlling the Millerton Lake pumps were upgraded and completed in FY 15-16.

In May 2017, the failed lake pumps and under-performing pump was replaced at a total cost of \$333,994. On May 16, 2017, the County, on behalf of the Districts, entered into a financing agreement with some of the Reservation Holders (J.P.J., Inc. and Table Mountain Rancheria), to finance the repair and replacement of the lake pumps. The Agreement requires benefitting parties to reimburse an amount equal to the funds provided by the Reservation Holders from funds collected by CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G at 0% interest rate, up to \$333,994, as determined appropriate by the Debt Advisory Committee (DAC). Repayment of this loan began annually in October 2018 and will continue through October 2027. The current balance is \$100,198.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

PROPOSITION 218

Due to the wide range of services that the County provides in various parts of CSA 34, a variety of fees and benefit assessments are necessary to fund all those services. The situation is further complicated by the fact that some facilities and administrative work necessary to provide those services are shared in CSA 34, CSA 34A, CSA 34C and CSA 34D, while other facilities for providing water and sewer services are local to CSA 34A, CSA 34C and CSA 34D. REPORT TO THE BOARD OF SUPERVISORS
COUNTY OF FRESNO

COUNTY SERVICE AREA 34, ZONE "D"
(Renaissance at Bella Vista)

FISCAL YEAR 2025-26

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 34, Zone “D” (CSA 34D), was formed on December 11, 2017. CSA 34D was created for Tract No. 4968, Renaissance at Bella Vista, and is in the Millerton New Town area on the south side of Millerton Road, west of the intersection of Millerton Road and Marina Drive. CSA 34D contains 106 lots of which all of the homes are either developed or under development. Services provided by CSA 34D include water, wastewater, road maintenance, open space monitoring and maintenance, landscape maintenance, street lighting services, and storm drainage maintenance.

All water treated in the surface water treatment plant and served to CSA 34D, County Service Area 34, Zone A (CSA 34A), County Service Area 34, Zone C (CSA 34C), Service Area 34, Zone F (CSA 34F) and County Service Area 34, Zone G (CSA 34G) customers is purchased from Arvin Edison Irrigation District through an annual exchange agreement.

ANNUAL CHARGES

Monthly fees will be collected on a bi-monthly basis. All water services are metered. The base rate and tiered rate structures for residential usage are identified in the Master Schedule of Fees.

SIGNIFICANT CHANGES

Phase II of the Millerton Lake Pumps and Pipeline Project, which primarily includes installation of the second, parallel pipeline, (and now the conduit and SCADA projects) began construction in FY 15-16 and was completed up to the water line as the water was too high to continue. The project has been delayed until the water in the lake goes back down. The Motor Control Center Project for the electrical center controlling the Millerton Lake pumps were upgraded and completed in FY 15-16.

In May 2017, the failed lake pumps and under-performing pump was replaced at a total cost of \$333,994. On May 16, 2017, the County, on behalf of the Districts, entered into a financing agreement with some of the Reservation Holders (J.P.J., Inc. and Table Mountain Rancheria), to finance the repair and replacement of the lake pumps. The Agreement requires benefitting parties to reimburse an amount equal to the funds provided by the Reservation Holders from funds collected by CSA 34, CSA 34A, CSA 34C, CSA 34D, CSA 34F and CSA 34G at 0% interest rate, up to \$333,994, as determined appropriate by the Debt Advisory Committee (DAC). Repayment of this loan began annually in October 2018 and will continue through October 2027. The current balance is \$100,198.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

PROPOSITION 218

Due to the wide range of services that the County provides in various parts of CSA 34, a variety of fees and benefit assessments are necessary to fund all of those services. The situation is further complicated by the fact that some facilities and administrative work necessary to provide those services are shared in CSA 34, CSA 34A, CSA 34C and CSA 34D, while other facilities for providing water and sewer services are local to CSA 34A, CSA 34C and CSA 34D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on December 11, 2017, with the formation of Zone D. The situation is further complicated by the fact that some facilities and administrative work necessary to provide those services are shared in CSA 34, CSA 34A, CSA 34C and CSA 34D, while other facilities for providing water and sewer services are local to CSA 34A, CSA 34C and CSA 34D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on December 11, 2017, with the formation of Zone D. The Assessment Engineer addressed the shared services and updated the Water Contract Assessment. The Board of Supervisors adopted the new assessment for Water Contract and Pump Repair Maintenance on October 8, 2019, with the formation of Zones F and G. The water and sewer fees based on the Consolidated Engineer's Report adopted by the Board of Supervisors during the Prop 218 procedures on January 26, 2015, for all of CSA 34 zones were adopted on March 1, 2016. The last increase in the water and sewer fees for the rate adjustment period was July 1, 2020. The assessments and fees will be re-evaluated in FY 2025-26 for all of CSA 34 and its zones.

COUNTY OF FRESNO

COUNTY SERVICE AREA 34SWTP
SURFACE WATER TREATMENT PLANT

FISCAL YEAR 2025-26

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 34 Surface Water Treatment Plant (CSA 34SWTP) is set up as a separate budget that began in FY 16-17 per the rate adjustment procedure which adopted an engineer's report to set fees and assessments within County Service Area 34 (CSA 34), and its Zones A (CSA 34A), C (CSA 34C), D (CSA 34D), F (CSA 34F) and G (CSA 34G) for the surface water treatment plant. The plant currently serves active connections within CSAs 34A, 34C, 34D, and 34G. The plant will serve future zones of benefit within CSA 34 as the development within Millerton New Town continues.

A separate budget for the plant was determined to be the most efficient method of tracking and appropriately sharing the costs between the benefitting zones. This is because CSA 34SWTP does not collect revenues directly from the customers that use the plant. Funds for CSA 34SWTP are budgeted as operating transfers out of the benefit zones' funds.

The water treatment plant began operations in June 2002, upon conveyance from the Developer under Settlement Agreement 02-271. Prior to being separated into its own budget, the cost of operations for CSA 34SWTP were budgeted within the CSA 34A and CSA 34C annual budgets.

WATER PROJECT

In FY 2018-19, the plant's capacity increased from treating 350 gallons of water per minute to 800 gallons per minute with the addition of a third Trident Packaged Treatment Plant with a design capacity of 450 gallons per minute.

WATER QUALITY

On March 6, 2017, the State Water Resources Control Board issued a compliance order for violation of the Stage 2 Disinfection Byproduct Rule Haloacetic Acids Maximum Contaminant Level. Disinfection byproducts form when chlorine, chloramine, chlorine dioxide, or ozone are used for treatment. However, there is no immediate risk associated with the violation and there is no need to use an alternative water supply. The County is taking the necessary steps to remedy this situation and meet all water quality standards.

WASTEWATER TREATMENT FACILITY

FISCAL YEAR 2025-26

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:

June 2025

NARRATIVE

County Service Area 34 Wastewater Treatment Facility (CSA 34WWTF) is set up as a separate budget for the wastewater treatment facility that serves County Service Area 34 (CSA 34), and its Zones A (CSA 34A), C (CSA 34C), D (CSA 34D), F (CSA 34F) and G (CSA 34G) and will serve future zones of benefit within CSA 34 as development within Millerton New Town continues.

A separate budget for the CSA 34WWTF was determined to be the most efficient method of tracking and appropriately distributing the costs associated with wastewater treatment facility to the zones of benefit that are served by the facility. This is because CSA 34WWTF does not collect revenues directly from the customers that use the facility. The different zones of benefit served by the facility also have different fee schedules/assessments in place to pay for wastewater services. Additionally, a portion of the operating funds are anticipated to come from developer(s) and reservation holders that contributed to the capacity within the facility until such time as there are enough users to fully fund the CSA 34WWTF operations. Funds for CSA 34WWTF are budgeted as operating transfer out funds in the zones of benefit served by the facility. Revenues for CSA 34 WWTF are budgeted as operating transfer in funds.

The wastewater treatment facility began operations in February 2012 upon granting of occupancy to the first completed home within Tract 4870, which encompasses CSA 34C. CSA 34A was also disconnected from the secondary wastewater treatment facility that had been serving their district and connected to the new tertiary level treatment facility at that time.

COUNTY SERVICE AREA 39
ZONE A AND B
BERAN WAY - PROSPECT/GROVE

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 39, Zone A (Beran Way) and Zone B (Prospect) (CSA 39AB), was formed in 1990 to provide domestic water service to two residential subdivisions west of the incorporated City of Fresno, near Valentine and Jensen Avenues and includes West Park School (APN: 327-140-377) on 2695 South Valentine. Originally, plans called for similar but physically separate well development projects, one in each zone. Due to subsequent design as well as State and Federal grant requirements, a pipeline system to bring water purchased from the City of Fresno to CSA 39AB was constructed instead. A “Mandatory Connection Ordinance” requires eligible parcels with a dwelling to pay service fees to finance the operations and maintenance of the water system. A parcel is eligible if it paid the original assessment to have a point-of-connection and meter installed in 1993. Although there are two zones of benefit (zone A and B) the district shares one budget for administrative cost efficiencies.

Excluding the school, there are a total of 166 parcels in CSA 39AB of which two are exempt and two are unbuildable. There are 164 meters on 162 parcels. CSA 39AB currently has 142 customer accounts including the school.

PROPOSITION 218

A rate adjustment procedure in FY 20-21 established the current fee structure. The rate includes two components. The first component is a base fee for all water users that covers the cost to operate and maintain the CSA 39AB water system. The second component is a commodity fee for the water itself, based on actual monthly water usage. The fees are billed bi-monthly.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

COUNTY SERVICE AREA 43
RAISIN CITY PARK AND LIGHTING DISTRICT

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 43 (CSA 43) formed in 1991 to provide street lighting and community park maintenance in the unincorporated community of Raisin City. The Raisin City Highway Lighting District previously provided the street lighting services. Raisin City Park and Recreation District provided park maintenance prior to 1989.

The park consists of a 0.98-acre parcel located south of Manning Avenue and west of Ormus Avenue, near Henderson Road. Annual assessments from developed parcels within CSA 43 fund the park maintenance and street lighting services.

There are currently 75 parcels developed with one or more dwellings or structures. This includes the Raisin City Elementary School, which is billed separately for the park maintenance and lighting. CSA 43 also receives a portion of property tax revenues from the State.

PROPOSITION 218

A rate adjustment proceeding was conducted in FY 14-15 to increase park maintenance and street lighting fees. A majority of property owners protested the proposed rates. The residents of CSA 43 have since requested that staff cancel the landscaping contract for the park as a cost savings measure. Residents decided to volunteer to maintain the landscaping of the park to help build up the cash reserves for the district.

In FY 15-16 the Citizens Advisory Committee (CAC) stated that the volunteer effort to maintain the park was declining in participation. In FY 22-23, the CAC requested that maintenance and repair work be completed at the park. Tree trimming was completed as well as servicing to the irrigation system.

A rate adjustment procedure in accordance with Proposition 218 is anticipated for FY 25-26.

GRANTS

In FY 22-23, Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program, which was authorized by the American Rescue Plan Act, allocated \$400,000 to CSA 43 for improvements to the Raisin City Park.

FISCAL YEAR 2025-2026

NARRATIVE

County Service Area 43 (CSA 43) was authorized the extended power of community water services through a LAFCo public hearing conducted on October 17, 2001. Subsequently, on May 14, 2002, the Board of Supervisors authorized the addition of water service to CSA 43.

CSA 43W has 68 water service accounts, including one for the Raisin City Elementary School, a water fountain located in the Raisin City Park, and a service for the Raisin City baseball facility.

PROPOSITION 218

In FY 13-14 through a rate adjustment procedure, the Board of Supervisors established increased fees for capital replacement and repair costs such as booster pumps, well pumps, and hydro tank and water tank maintenance. Staff is planning to conduct a rate adjustment procedure in FY 25-26 to account for increased operations and maintenance costs.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

Grants

In FY 22-23, Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program, which was authorized by the American Rescue Plan Act, allocated \$2,000,000 to CSA 43W for well site improvements. SLFRF will fund the design, engineering, planning, environmental review, right-of-way easements, construction, and permitting costs for a new groundwater well site that is necessary to maintain adequate service levels, improve drinking water capacity, and provide adequate fire flow within the community.

NARRATIVE

County Service Area 44 (CSA 44) was formed in 1992 to provide street lighting to the community of Friant. CSA 44 was previously administered as the Friant Highway Lighting District. There are 223 parcels in CSA 44 of which 133 are currently developed. Five parcels were consolidated in FY 2004-05. An additional three parcels were consolidated in FY 2019-20.

ANNUAL CHARGE FOR SERVICE

Street lighting provides a benefit for inhabitants of a community by making nighttime travel safer as they move by foot, bicycle or vehicle within the community. The lighting also provides a benefit through general security. All owners of developed properties share these benefits regardless of zoning or use of their property. The owners of developed property should, therefore, equally share the cost of the service.

Vacant property owners would not benefit from the service since they would not normally be in the area after dark and the lighting would provide little, if any, benefit for security reasons. Therefore, they are excluded from the charge for service.

FISCAL YEAR 2025-2026

June 2025

NARRATIVE

County Service Area 44, Zone "A" (CSA 44A) encompasses the Millerton Lake Mobile Home Village located in Friant, CA, and was formed in 1992, to assume operation of the existing sewer treatment facility. There are 104 parcels in CSA 44A. Of these, 98 are developed, leaving one vacant parcel and 5 outlots. The benefit of sewer service to the 98 developed parcels is relatively equal since all are mobile homes.

In FY 2016-17, a security railing was installed around the perimeter of the existing wastewater treatment plant.

PROPOSITION 218

The Board of Supervisors adopted increased sewer fees on March 6, 2007, in accordance with Proposition 218 due to the lack of a majority protest by property owners of CSA 44A. The incremental increased fees were billed to the property owners on March 31, 2007. The full amount of the increased fees was included in the FY 2007-08 property tax bills and thereafter annually.

Revenues have not kept up with expenses over the past several years. A Proposition 218 rate increase is expected in FY 2025-26 to make up the shortfall and rebuild reserves.

GRANTS

In FY 2022-23, Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program, which was authorized by the American Rescue Plan Act, allocated \$250,000 to CSA 44A for improvements to the Friant Mobile Home Trailer Park Sewer Facility. Improvements are expected to be completed in FY 2025-26.

NARRATIVE

On February 23, 1999, the Board of Supervisors approved formation of County Service Area 44, Zone "C" (CSA 44C) to provide water service to the River View Subdivision, located east of Friant Road and Lost Lake Park, approximately one mile south of the community of Friant. This subdivision is also known as the Tanqueray Subdivision. The subdivision consists of 12 residential lots and one common area, covering approximately 30 acres.

In FY 2024-25, CSA 44C had a new water tank installed, funded by the American Rescue Plan Act (ARPA). All water meter heads were replaced as part of an ARPA funded water meter replacement project. CSA 44C had elevated lead levels detected in its water and is currently conducting increased water quality monitoring, a lead public education program, and evaluation to determine what, if any, corrosion control measures are needed.

PROPOSITION 218

Current fees for potable water service were established pursuant to Proposition 218 proceedings on May 1, 2002. Separate rate structures were established for residential and landscaping irrigation use. Additionally, a rate was also established for landscaping irrigation in the common area lot.

FISCAL YEAR 2025-2026

June 2025

NARRATIVE

County Service Area 44, Zone "D" (CSA 44D) was formed on February 23, 1999, to provide water and sewer services to the Monte Verdi Estates Subdivision. The subdivision consists of 125 residential lots, located on Willow Avenue just south of Friant Road.

The Homeowner's Association (HOA) maintains the roads and landscape irrigation system within the subdivision.

CSA 44D provides water and sewer services to 125 homes. Water is also provided to the common landscaped areas, the median entrance and landscaping along the roadway that the Monte Verdi HOA oversees.

Improvements to the wastewater treatment facility, program number 91083, were completed in FY 2019-20 and the facility is currently producing Title 22 quality water (reclaim water). The Title 22 report and the updated Wastewater Discharge Requirements (WDRs) received conditional State approval to use the recycled water for irrigation purposes. The conditional approval was contingent upon improvements to the reclaim system prior to using the reclaim water. In the interim, the reclaim water was discharged to the CSA 44D leach field and potable water was used for irrigation. The improvements to the reclaim system were completed in June 2023. In August 2023, recycled water began being used for irrigation to the common landscaping areas within the subdivision.

In FY 2024-25, CSA 44D incurred unexpected costs for well repairs, including replacing a pump, motor, pipes, and the well's internal lining. All water meter heads were replaced as part of an ARPA funded water meter replacement project.

PROPOSITION 218

On November 5, 2013, through the Proposition 218 process, the Board of Supervisors adopted Resolution 13-438 and 13-439 establishing fee increases to fund the operations and maintenance of the community water and sewer services and address the replacement/repair of known capital components in the upcoming years. Increased fees included an annual inflation factor of 3.12%. Department staff also secured a State Revolving Fund loan and a Water Recycling Fund Program Grant to complete improvements for the wastewater facility. Construction for the project began in FY 2018-19 and was completed in FY 2019-20. Repayment of the State Revolving Fund loan was secured by an assessment in FY 2020-21, which will be paid over the 30-year term of the loan. The last increase in the water and sewer fees was January 1, 2014.

Revenues have not kept up with expenses over the past several years. A Proposition 218 rate increase is expected in FY 2025-26 to make up the shortfall and rebuild reserves.

COUNTY SERVICE AREA 47
QUAIL LAKE ESTATES

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:

June 2025

NARRATIVE

County Service Area 47 (CSA 47) was formed in 1995 to provide community water and sewer services to the Quail Lake Estates Subdivision located between Ashlan and Shaw Avenues, east of McCall Avenue. CSA 47, which encompasses approximately 375 acres, includes 708 residential lots, a community clubhouse, an elementary school, and a commercial parcel (APN 571-041-09s) zoned C-1-c (conditional) located at the intersection of Shaw Avenue and Quail Lake Drive.

Sewer service provided to the elementary school is charged a flat rate multiplied by the number of students, faculty, and staff at the school, as estimated by Sanger Unified School District (SUSD). SUSD is billed once annually, after the beginning of the school year, when a “final” count of the students, faculty, and staff occupying the school has been calculated. The commercial parcel is not charged for water and sewer service at this time as it is vacant and is not anticipated to be developed for a number of years.

CSA 47 is the primary administrator of the water recharge facility located within the Red Bank Slough, but the Quail Lake Owners Association (QLOA) and Fresno Irrigation District (FID) also play a role in administering this facility per Agreement 05-068. Per the Agreement, FID is to fill the recharge facility between April 15 and June 1, with the goal of recharging 400 or more acre-feet of water each year, except in the case of a severe drought when the water is unavailable.

Wastewater Facilities

At the end of FY 2021-22, a barrel screen project was completed, where the barrel screens were rebuilt at a cost of approximately \$86,000. This rebuild seems to have slightly decreased sludge pumping costs.

Since FY 2020-21, there have been constant high flows at the CSA 47 wastewater plant causing sludge pumping services to be increased by more than 150%: from 4 loads to over 10 loads per week. Staff anticipates sludge pumping costs to increase based on the consistent increase in cost over the last few years.

CSA 47 staff hired an on-call engineering consultant to provide alternative long-term solutions to the challenges the wastewater facilities are facing. Staff will work with the QLOA/Citizens Advisory Committee and the community to determine which option is the most feasible.

PROPOSITION 218

The current water and wastewater service rates became effective on November 1, 2016, as approved by the Board of Supervisors on September 13, 2016, pursuant to State Proposition 218 guidelines.

Due to increased costs, a Water and Sewer Rate Study was completed in FY 2024-25 to determine appropriate rates to adequately fund the CSA 47 water and sewer systems. A rate adjustment proceeding following the Proposition 218 guidelines will be conducted.

GRANTS

All water meter heads were replaced in FY 24-25 as part of an ARPA funded water meter replacement project.

REPORT TO THE BOARD OF SUPERVISORS
COUNTY OF FRESNO

COUNTY SERVICE AREA 49
FARMING COMMUNITY OF J. E. O'NEILL

FISCAL YEAR 2025-2026

Submitted By:
DEPARTMENT OF PUBLIC WORKS AND PLANNING

Prepared By:
RESOURCES DIVISION

June 2025

NARRATIVE

County Service Area 49 (CSA 49) formed on March 27, 2001 to provide water services and local park/recreation services to the farming community of J.E. O'Neill located approximately 3 miles southwest of the community of Five Points. Currently, the district provides only water services. CSA 49 consists of 46 connections: Westside Elementary School, a day care center, 3 commercial operations, a market, and 40 residences. The district's first budget was in FY 03-04 for preparing a preliminary engineer's report needed for an application to obtain State Revolving Funds for constructing upgraded water treatment facilities.

State and Federal funds as well as a Community Development Block grant funded the construction of the water system. Construction completed and the system became operational in September 2010.

PROPOSITION 218

Through a rate adjustment procedure in FY 06-07, the Board of Supervisors approved the engineer's report and its proposed annual assessments.

The assessments have two components. One is for the operations and maintenance of the water system. The other component of the assessment is for the capital cost of debt service.

In FY 09-10 the Board of Supervisors adopted monthly base and tiered water fees through a rate adjustment procedure after a finding was made that there was not a majority protest. The fees are billed bi-monthly.

A rate adjustment procedure is planned for FY 25-26.

All water meter heads were replaced in FY 2024-25 as part of an ARPA funded water meter replacement project.

CHARGES FOR WATER

CSA 49 purchases raw water from Westlands Water District (Westlands). Since 2014, the fees for Municipal and Industrial raw water have greatly fluctuated which has caused financial instability for the district. The most recent rate change occurred in November 2024 when rates were changed to \$182.43 per acre foot.

GRANT

The CSA 49 system received a Compliance Order # 03-23-12O-012 on October 30, 2012 that was replaced by Compliance Order # 03-23-14R-025 on November 7, 2014 due to Trihalomethanes (TTHM) violations. That Compliance Order was recently replaced by Compliance order # 03_23_17RA_008-A1. The district also received

Compliance Order # 03-23-13R-006 due to Haloacetic Acid Five (HAA5) violations on August 27, 2013. The surface water treatment plants at CSAs 30 and 32 have similar disinfection byproduct issues. The system is old and may not provide optimal total organic carbon (TOC) reduction to help in control of the byproducts. Contact time (CT) may not be achieved under all conditions according to the permit issued by State Water Resources Control Board (SWRCB) in January 2010.

In FY 16-17, district received State funds to improve the surface water treatment facility. Due to high operations and maintenance costs to treat surface water, the grant is funding the planning, design, and construction of a pilot well. In FY 20-21, staff applied for funds to construct 2 permanent wells to fully transition the district to groundwater, program number 91225.

In FY 23-24, the district received Technical Assistance funding from the State Water Resources Control Board to fund a water rate study in order to determine sustainable rates for the community. The water rate study is being completed by Provost & Pritchard Consulting Group.

NARRATIVE

County Service Area 50 (CSA 50) was formed on June 18, 2003, to provide needed fire protection and emergency services for the Auberry community. The Auberry Volunteer Fire Department has been providing these services to the Auberry area since 1957 but formed a County Service Area as a means of providing a stable revenue stream in lieu of relying solely on financial donations from the community.

There are approximately 1,230 parcels within the service area, which include single family homes, commercial properties (i.e., stores, offices, restaurants, garages, and service stations), mobile home parks, agricultural lands, and vacant parcels.

The “Charges for Services” is collected through the property tax rolls

AUBERRY VOLUNTEER FIRE DEPARTMENT

The contract between the County of Fresno on behalf of CSA 50 and the Auberry Volunteer Fire Department was approved by the Board of Supervisors on June 22, 2021. The information below reflects the terms of the contract:
