**Step 1: This Waste Management Plan - Determination Form (Page 1) must be submitted and approved prior to permit issuance.**

The Integrated Waste Management Act of 1989 (AB 939) requires cities and counties to reduce, by 65%, the amount of waste disposed of in landfills by the year 2000 and beyond, or potentially incur fines of up to \$10,000 per day. This Waste Management Plan and the Waste Log/Acknowledgements are designed to assist County compliance with this State mandate, and provide builders with a means of documenting the waste reduction requirements included in the latest edition of the California Green Building Standards Code (CALGreen, Section 4.408.1-5).

**Projects are required to submit their Waste Log, Acknowledgement Form, and Weight Receipts prior to Certificate of Occupancy (CO) issuance. Failure to provide documentation of solid waste (trash) reporting, reporting of waste diversion less than 65%, and failure to provide adequate weight receipts, may render a WMP non-compliant and owner subject to fines.**
