CORE CONCEPTS:

- **Community collaboration:** individuals, families, agencies, and businesses work together to accomplish a shared vision.
- **Cultural competence:** adopting behaviors, attitudes and policies that enable providers to work effectively in cross-cultural situations.
- **Individual/Family-Driven, Wellness/Recovery/Resiliency-Focused Services:** adult clients and families of children and youth identify needs and preferences that result in the most effective services and supports.
- **Access to underserved communities:** Historically unserved and underserved communities are those groups that either have documented low levels of access and/or use of mental health services, face barriers to participation in the policy making process in public mental health, have low rates of insurance coverage for mental health care, and/or have been identified as priorities for mental health services.
- **Integrated service experiences:** services for clients and families are seamless. Clients and families do not have to negotiate with multiple agencies and funding sources to meet their needs.

PROGRAM OUTCOME & GOALS

- **Must include each of these areas/domains:** (1) Effectiveness, (2) Efficiency, (3) Access, (4) Satisfaction & Feedback Of Persons Served & Stakeholder

- **Include the following components for documenting each goal:** (1) Indicator, (2) Who Applied, (3) Time of Measure, (4) Data Source, (5) Target Goal Expectancy

The goal of the program is to provide DBH clients with temporary, on-site child care so that they may have the ability to receive the necessary services from the Fresno County mental health department. We are also working towards complying with the CARF performance measures. The value of this service has proven effective because with out it parents express that they would often have to miss their appointments due to lack of child care. It has proven to be efficient because 91.33% of the clients who seek this child care service receive it. That percentage reflects the accessibility of the program to the clients being served at the 2 DBH sites. This year, the two sites program outcomes were negatively impacted by the COVID-19 pandemic. The pandemic forced the sites to closed for 3.5 months losing out on potentially 1000 additional number of services rendered during this time period.
