

# COVID-19

## Additional Epidemiology Surveillance Update

Fresno County, CA

Page 1 of 4

**-All reported numbers are preliminary and subject to change based on further investigation-**

Data below represents COVID-19 cases with a confirmed status in CalREDIE. Confirmed cases only include lab reported PCR positives and not cases diagnosed using Antigen testing. The total case counts and new cases per day on the main dashboard represent all provider or lab reported positives; some of these will include suspected cases reported by provider report that are in the process of being confirmed by lab report. Due to this the counts reflected in the figures below may be less than the total number reported.

### Total Registered Confirmed Deaths Associated with COVID-19

**932**

\* This count will only include registered deaths in cases with a confirmed positive PCR test.
