FMFCD Basin on property? _____

REVIEWED BY: _____

DATE: _____

Department of Public Works and Planning, Development Engineering

Notes:

- A. This letter is not to be considered a flood zone determination. It is up to the lender to determine whether flood insurance is required for a property. Flood Insurance is required for property located within the special flood hazard areas (FEMA Flood Zone A, AE, AH, AO) if a Federally backed mortgage or grant is secured for a structure. Flood Insurance from the National Flood Insurance Program (NFIP) is available for property located within the County of Fresno.
- B. Please be advised that in addition to the FEMA flood zone designations noted above, the property is subject to zoning regulation under the County Ordinance. You are strongly encouraged to contact the Development Services and Capital Projects Division to verify zoning of your property.
- C. Please note that this information is based on the 100-year flood (a one percent chance of occurring in any given year) as shown on the Flood Insurance Rate Map, provided by the Federal Emergency Management Agency. This letter does not make a determination that the referenced property will or will not be free from flooding or damage during such an event. A property not in a special flood hazard area may be damaged by a flood greater than that predicted on the flood insurance rate map or from a local drainage problem not shown on the map. In addition, this letter does not create liability on the part of The County of Fresno or any officer or employee thereof for any damage that results from reliance on this Request for Flood Hazard Information.
- D. For more information regarding flood hazard or constructing within the Flood Zone please contact Development Engineering at (559)600-4022 or visit the County of Fresno website at <https://www.fresnocountyca.gov/Departments/Public-Works-and-Planning/flood-protection-and-planning>
